MEN, I HAVE THE CURE

For Nervous Debility, Varicocele, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease; Indigestion, Constipation or any Weakness, and

**I WILL PAY
\$1,000 FORFEIT**

For a case which I cannot cure with my new Improved Electric Belt, the marvel of electricians, the most wonderful curative device that has ever been introduced. This Belt is complete with Free Electrical Attachment, and you

PAY ONLY WHEN CURED.

The only condition I impose is that you give me security for the Belt while you are using it as evidence of good faith on your part. You can then use it on the above conditions.

This Electric Attachment carries the current direct and cures all weaknesses, varicocele, etc. It develops and expands all weak nerves and checks a loss of vitality. No case of Falling Vigor, Varicocele or Debility can resist this powerful Electric Attachment. It never fails to cure. It is free with Belts.

No man should be weak, no man should suffer the loss of that vitality which renders life worth living. No man should allow himself to become less a man than nature intended him, no man should suffer when there is at hand a certain cure for his weakness.

Most of the pains, most of the weakness of stomach, heart, brain and nerves from which men suffer are due to the early loss of nature's reserve power. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may as well be as happy as any man that lives.

My Electric Belt, with special Electric Attachment (free), will restore your health. It will check all losses and affects every organ of the body. Most ailments from which you suffer can be traced to it.

I have cured thousands of men who have squandered the savings of years in useless doctoring.

My Belt is easy to use. Put it on when you go to bed; you feel the glowing heat from it (no sting or burn as in old style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

An old man of seventy says he feels as strong and young as he did at 35. That shows it renews the vigor of youth. It cures Rheumatism, Sciatic Pains, Lumbago, Kidney Trouble. Banishes pain in a night, never to return.

EVIDENCE LIKE THE FOLLOWING COMES TO ME EVERY DAY:

"I was a chronic sufferer from Rheumatism for 16 years. Your Belt cured me four years ago, and I have never had a pain or an ache since."—S. NICKERSON, Niagara Falls South, Ont.

"Two years ago your Belt cured me of sore back and weak kidneys, and I have never been troubled since. The cure is permanent."—GEO. A. WEBB, Aberdour, Ont.

"Your Belt strengthened my nerves and built me up, and I am well and strong for the past three years since wearing your Belt."—WILLIAM PORTER, Bredenburg, Assa.

"The benefits I received from your Belt are lasting and permanent. I have had none of my troubles since I stopped wearing it in 1901."—G. L. SAVAGE, Chesley, Ont.

CAUTION—Don't be misled by concerns offering you something in the form of an electric appliance for a few dollars. You may get a Belt, but in name only. No reliable business man will advertise a good article for nothing. Such an offer is merely a catch. The best is none too good when you want a cure. This we guarantee to give you.

FREE BOOK—If you can't call write for my beautiful descriptive book showing how my Belt is used. It explains how my belt cures weakness in men and women, and gives prices. Send for it TO-DAY. Address

Advice to Mothers.

By Edwin Wooton.

THE STUPID CHILD.

Some brains are preternaturally sensitive to impressions, retentive of that which is impressed, and rapid in carrying out mental labor. Others have an opposite character. We call the one "sharp" or "clever," and its contrary "stupid." If by clever we mean anything admirable, and by stupid anything despicable or pitiable, we shall often be wrong in our balancing of merits. Frequently slowness and irresolution are quite natural to persons who attain high distinction for intellectual conquests. Even an imbecile may be fully conscious of suffering unkindness. A merely slow child may know full well that he suffers injustice. Not without reason do I protest against the common practice of praising Tommy the sharp, and ridiculing Dicky the stupid. How often do we find one child in a family held up as a shining light and another made a target for jests! One child trained into a conceited prig and another made callous! The prig gains the idea that he is a phenomenon, and retains the notion until disillusioned by conflict in the world's arena. The fool of the family goes into the broader life beyond the threshold of home with the dominant belief of his being inferior to his fellows. Starting thus handicapped, there should be little wonder if he fails to achieve what men call success. Sometimes, however, he does this. Once removed from the false environment of home the boy expands mentally. If he goes where no account of his "stupidity" has preceded him, he may find that certain qualities other than sharpness are appreciated—to wit, honesty, fidelity, energy, with those many associated traits that together make up that most admirable thing—trustworthiness. Think what this means—to be worthy of trust! You, if a wise master, might prefer placing in sharp Tommy's hands any secret service work, but you would most certainly feel safer in trusting your finances to Dicky.

Parents, do not snub the stupid child. Do not compare him day by day with his reputedly more clever brother. Believe me, that in so acting you work manifold evil. Not only will the children be harmed, but your own moral sense. The stupid child may attain that noblest self-conquest implied in the word forgiveness; but to forget is not within his power.

And are you quite sure that the fault is not with your idiotic system? Possibly you are more stupid than the child, and think to drive the Pegasus of the gods harnessed to your rumbling old cart laden with a loose jumble of dry "facts" along the ruts of common school life. There is another type of mind, the analytical, that does not lend itself to the methods of the schoolmaster. It does not register the ideas of others until they have been examined and comprehended. But it is such a type that makes the thinker, the intellectual master, whereas the brilliancy of the rapidly acquisitive child is apt to be ephemeral as the light from a meteor, and as useless.

Will you give yourselves a chance by affording one to the stupid child? His geography and history should be as interesting as any fiction, full of the romance of strange peoples and scenes. A book like "Hereward the Wake" can be made the nucleus around which will crystallize all the facts that led up to and followed the Norman conquest. "Ivanhoe" will serve in like manner for the time of the first Richard; and "Woodstock" for that of the Common-wealth.

Pictures of great battles and other historical scenes, and photographs (stereoscopic, if possible) of foreign countries are amongst the best of educational agents for the subjects concerned. You may find that while the stupid child is quite unable to commit a proposition of Euclid to memory (and he would be very little the better if he succeeded), he is far from failing to benefit by a patient demonstration of the same. There are other plans by which the road may be made smoother. It is not easy to commit to memory declensions and verbs, but it is quite so to master the
