

DE LAVAL CREAM SEPARATORS

Best Time To Buy One

There never was a better, if indeed as good, a time to buy a DE LAVAL Cream Separator than **right now**.

The hot weather is at hand when the use of the cream separator frequently means most as to quantity and quality of product, while cream and butter prices are so very high that waste of quantity or poorness of quality means even more now than ever before.

This is likewise the season when DE LAVAL superiority is greatest over other separators—in capacity, ease of running, sanitary cleanliness and every other way.

Cost need not be a consideration, because a DE LAVAL Cream Separator is not only the best of all farm investments, but may be bought either for cash or on such liberal terms as to actually pay for itself.

There never was a better time than right now to buy a cream separator, and there can be no possible excuse for any man having use for a separator delaying the purchase of one at this time.

Look up the nearest DE LAVAL agent at once, or if you don't know him write us directly.

MANY EXCLUSIVE FEATURES

PEASE ECONOMY FURNACE

One of which is—**AIR BLAST**—an ingenious device by which a continuous current of air is brought into the combustion chamber—mixed with the gases liberated from the burning coal, causing their complete combustion and conversion into heat. These gases in ordinary furnaces go up the chimney and are wasted, or leak into house and are poisonous.
