" " New Brunswick: R. P. CHURCH, ST. JOHN

## Complete Protection

A sprinkler system protects a plant completely from damage by fire—but a small fire may be immediately extinguished by the sprinkler, yet the water will be left running all night—to do perhaps thousands of dollars' worth of damage.

A Sprinkler Supervisory System turns in a fire alarm as soon as the sprinkler starts to operate brings a man to the scene immediately to turn off the water as soon as the fire is out.

In addition, it keeps us informed of the height and temperature of water in the tank and of any shutting or opening of valves, so that we know the system is always in working order.

It will interest you to know how this system takes the place of a watchman on nights, Sundays and holidays. How by our service you can procure complete protection and that feeling of security that can be obtained in no other way.
