DEATH OF GEORGE NASH

Mr. George Nash, one of Athens' oldest and most highly esteemed citizens, passed away on Tuesday morning last, after an illness of about three years duration, which was borne with remarkable fortitude and resignation. Though at times his sufferings were great, being due to a complication of diseases incident to his advanced years, he never murmured or complained, accepting the inevitable with that complacency which in his long and useful life was characteristic of him and which was a deep source of consolation to the wife and family now called upon to mourn the loss of an affectionate husband and father.

The late George Nash was a native of Elizabethtown. He was born near New Dublin June 13th, 1828, and was therefore 79 years of age at the time of his death. Over half a century ago, Feb. 23rd, 1853, Mr Nash married Miss Elizabeth Blanchard of Farmersville, who now with a family of five children survive. They are Mrs E. Billings of Brockville, Mrs C. C. Slack, Mrs G. W. Beach, Mrs J. H. McLaughlin, all of Athens, and Dr. C. C. Nash, Bath.

After their marriage Mr and Mrs Nash removed to Maud's Mills in Kitley, where he followed farming for several years, subsequently taking up his residence in Athens 47 years ago last December and residing in the same house for that period. For a number of years Mr Nash engaged in lumbering extensively, carrying on operations at Newboro and Pike Falls, eventually retiring on a well earned competence.

Of a quiet, unostentatious disposition Mr Nash never sought public preferment, but his advice was eagerly asked and freely given to his fellow citizens on the many and intricate questions appertaining to the welfare of the community in which he spent so many years of useful life. His loss will be deeply felt and his place in the village hard to fill. In religion Mr Nash was a Methodist and in politics a Liberal. The funeral service is being conducted in the Methodist church this (Wednesday) afternoon by the Rev. S. J. Hughes.

The A.H.S. Staff

After careful consideration, the trustee board have filled the two vacancies on the staff of the A.H.S. by engaging Miss May Cummer of Parry Sound to teach the Science department and Miss E. A. Duncan, B.A., Toronto University, to teach Moderns. Both these ladies are experienced teachers and their successful records and first-class testimonials commended them to the favorable consideration of the board.

On Monday the board received notice from Mr. W. C. Dowsley, M.A., Classical Master, now reading departmental papers in Toronto, that he proposed severing his connection with the staff of this school. Needless to say, this notice was received with surprise and sincere regret by the board, a feeling that will be shared by all interested in the school. Mr. Dowsley's record as a teacher in Athens has been such as to win high favor with the trustees, other members of the staff, and with the students. We understand that Mr. Dowsley contemplates taking a position on the staff of Brockville Collegiate Institute.

SUNDAY CHEESEMAKING

Replying to the president of a cheese board who asked the Department of Justice for an opinion with reference to the law touching the important subject of the care of milk and manufacture of cheese on Sunday, the Hon. A. B. Aylesworth replied as follows: Ottawa, July 5th, 1907.

Dear Sir,—I have your petition for an amendment of the Lord's Day Act to permit the manufacture of cheese continuing after 12 o'clock on Saturday night, and your representations will certainly have careful consideration. But I may point out that under the statute as it now stands the caring of milk and cheese is specially declared to be a work of necessity which any person may do on the Lord's Day. There is also a provision permitting unavoidable work on the Lord's Day to save property in danger of destruction or serious injury, and it occurred to me that very possibly a court would consider the necessary work of continuing cheesemaking to a proper termination after midnight of Saturday would fall within one, or both, of these provisions. I remain, Yours faithfully,
A. B. Aylesworth.

Died at Calgary

On Monday of last week a telegram was received at Athens announcing that on Sunday, in the hospital at Calgary, Alta., Marion Ferguson eldest daughter of Mr. and Mrs. William Ferguson died aged about 11 years.

Death was due to typhoid fever. Mrs. Ferguson and family were for a time residents of Athens, but left last winter to join Mr. Ferguson, who is a C.P.R. locomotive engineer with headquarters at Strathmore, near Calgary. Dr. Moore and Mr. G. M. Pierce, uncles of the deceased, met the remains in Brockville on Thursday and the funeral service was conducted at Malorytown on the afternoon of that day. The grief-stricken family have the heart-felt sympathy of many in this section.

Court of Appeal

On Thursday evening last His Honor Judge Reynolds held a court in the town hall to hear appeals from the village Court of Revision. Mr. H. H. Arnold appealed against the assessment on his store property, his residence and his mother's residence, on the ground that it was too high and out of proportion to the assessment of other similar properties.

Mr. T. R. Beale appeared for the village and received testimony in support of the assessment from three members of the committee appointed to advise the council in respect thereto.

Mr. Arnold presented his case very clearly and forcibly, but called no witnesses to support his contention, and his appeal was not allowed.

Mr. S. A. Taplin had filed an appeal that was calculated to let in a little light on the subject of income taxation, but unfortunately his appeal could not be heard.

This concluded the business of the court.

THE McINTOSH FIRE

Briefly, last week, the Reporter announced the heavy loss by fire sustained by Mr. Hockey, a tenant of the old McIntosh homestead, in the destruction of the barns.

In commenting on the fire, an occasional correspondent of the Reporter says:—

"Some report that a tramp was noticed in the shadow of the woods the afternoon previous to the fire; others speak of evidence of a lunch having been eaten in the barn—and so on. When we know it was not caused by an explosion or lightning, it is neither wise nor just to be suspicious without clear indication.

"One thing we do know—that the good people of this locality are far above the reach of suspicion, and Messrs. Rumor, Gossip & Co. ought to be made to hold their tongues, or be punished. There are many ways in which a fire may occur and not involve any one in blame.

"As we passed the scene of desolation, yet smoking, the metal remains of a new binder and a number of other valuable agricultural implements could be seen, also the smouldering remains of 25 tons of first-class old hay.

"Mr. George McIntosh of Harrison is now here investigating the fire. The local record around our globe furnishes an unbroken daily chain of disasters and losses that is truly heart-rending and appalling—all by fire and storm. The 'bitten glove' is thrown to Science and takes all her time to pick it up.

"W. S. H."

Killed by Lightning

A colt belonging to Mr. Moulton, who lives near Delta, was killed by lightning on Saturday, July 20, during the storm. Along with other young stock it was being pastured on Mr. Jonas Bruce's farm near Toledo and was killed there. A strange thing about it is that in the same pasture two weeks before Mr. Moulton had another colt killed by lightning. Within a year he has lost five head of stock by lightning.

Loss of Appetite

Is commonly gradual; one dish after another is set aside till few remain. These are not eaten with much relish, and are often so light as not to afford much nourishment. Loss of appetite is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics. Accept no substitute for Hood's.

AT THE BIG

Summer Sale

The goods and not the talk about them, makes this sale. It isn't because of large type and big space in the newspapers, it isn't because of persuasive argument, it isn't because of any special public preference for this store. It isn't for any of these reasons that this sale is in records of sale far beyond anything in our history. It is because of the high quality of the goods and the extreme low prices that the chief July activity centres here.
