He first stated that the Government were in perfect accord regarding the aboli- tion of the Legislative Conncil. The Government had approached the ques- tion in a way respectful to a body hav- ing a high position in the country, and intend during the present session to bring in a measure with reference to the Council, but having ence mention- ed it in the speech it would scarcely be constitutional to allude to it there again. MR. RYAN AND THE COUNCIL. The Atty. General then alluded to the statement made by the leader of the Opposition that there could not be an independent vote on the question because there were members in the House with commissions and promised of seats in the Legislative Council The Provincial Secretary said there was not a member in the House who had a commission or a seat pledged to him, and he absolved any who had from secrecy in the matter. The member from Gloucester said he has been offered a seat by three members of the Government. If what the Sec retary had said would absolve him o nothe would not question. The mem- ber from Gloucester said the offer has	If his friends had deceived him, it was a matter between his friends and him- self. If there was any secrecy in the matter, it had been violated long before by him (Mr. Ryan), and he was in- formed that, before he came to Fred- ericton, he stated he was offered a seat in the Council. Mr. Ryan said he did not wish to al- lude to the offers that came to him through bis friend and which he had always resisted. He met the Attorney General the first day of the session, who then handed him the telegram, saying we have considered the matter and as far as I am concerned it is all right. He thought the meeting with the Attorney General was appointed for the next night. The President of the Council told him the seat was at his disposal. He replied that he could not honorably accept it. He asked what the conditions were attached to it and was informed that he would be expected to support the Government. In reply to Mr. Young he said he had a conversation about the matter with a friend of his and said it might be left an open question, but if they had any one else not to keep the seat open for him. He then says the Executive Government in 1868 cost \$22,000, and in 1880 \$30,000, and that there can be a large saving in that respect. He said that the balance had been coming down and the Province is now largely in debt. On October 31, 1876, there was a balance of \$128,- 876.71, and the balance at the end of the fiscal year 1877 was \$96,757.60, or a reduction of \$32,119.11. How does this reduction occur? That year there was a short session of the Legislative Council. In consequence of the fire in St. John it involved \$7,240.99. During 1877 \$50,000 was paid for the erection of the Normal School out of the ordinary revenue, and which ought to have been charged to capital account, making a total of \$57,240.99 taken from revenue account alone. If this had been left there would have been a larger balance in 1877 than in October of 1876 by \$25,121.88 or the total balance would have been \$153, 998.59. General replied at great length to the state- ments made by the Opposition. He first stated that the Government were in perfect accord regarding the aboli- tion of the Legislative Council. The Government had approached the ques- tion in a way respectful to a body hav- ing a high position in the country, and intend during the present session to bring in a measure with reference to the Council, but having ence mention- ed it in the speech it would scarcely be constitutional to allude to it there again. MR. RYAN AND THE COUNCIL. The Atty. General then alluded to the statement made by the leader of the Opposition that there could not be an independent vote on the question because there were members in the House with commissions and promised of seats in the Legislative Council The Provincial Secretary said there was not a member in the House who had a commission or a seat pledged to him, and he absolved any who had from secrecy in the matter. The member from Gloucester said he had been offered a seat by three members of the Government. If what the Sec retary had said would absolve him o no the would not question. He met the Attorney General the first day of the session, who then handed him the telegram, saying we have considered the matter and as far as I am concerned it is all right. He thought the meeting with the Attorney General was appointed for the next night. The President of the Council told him the seat was at his disposal. He replied that he could not honorably accept it. He asked what the conditions were attached to it and was informed that he would be expected to support the Government. In reply to Mr. Young he said he had a conversation about the matter with a friend of his and said it might be left an open question, but if they had any one else not to keep the seat open for him. Hon. Mr. Fraser said the hon. gen- tleman stated what was incorrect. He never said that as far as he was con- cerned it was all right. It was a com- plete falsification on the part of the hon gentleman. The statement mot	debtedness for debentures account \$912,000, the annual interest on which, at 6 per cent. will amount to \$54,720. The leader of the Opposition says the abolition of the Legislative Council would save \$12,000. This is part of the \$30,000 he would save. He then says the Executive Government in 1868 cost \$22,000, and in 1880 \$30,000, and that there can be a large saving in that respect. He said that the balance had been coming down and the Province is now largely in debt. On October 31, 1876, there was a balance of \$128,- 876.71, and the balance at the end of the fiscal year 1877 was \$96,757.60, or a reduction of \$32,119.11. How does th's reduction occur? That year there was a short session of the Legislative Council. In consequence of the fire in St. John it involved \$7,240.99. During 1877 \$50,000 was paid for the erection of the Normal School out of the ordinary revenue, and which ought to have been charged to capital account, making a total of \$57,240.99 taken from revenue account alone. If this had been left there would have been a larger balance in 1877 than in October of 1876 by \$25,121.88 or the total balance would have been \$153, 998.59. The balance on hand en Oct 31st, 1878, was \$40,920.31, or a reduc tion between 1878 and 1877 of \$55,837. 29. It might be asked how the reduc tion occurred. The balance on hand on Oct 31st, 1878, was \$40,920.31, or a reduc tion between 1878 and 1877 of \$55,837. 29. It might be asked how the reduc tion occurred. In 1878 \$25,000 was paid to the St. John relief fund, \$12, 000 for the commencement of a new wing of the Lunatic Asylum, \$6,000	total capital amount, \$192,120.50. The exceptional expenditure was: 1877, short session, \$7,240.99; 1878 St. John fire, \$25,000; consolidated statutes, \$18.000; Rodney street wharf, \$4,000; 1880, special committees, \$3, 000; vice-regal reception, \$16,399,63; school loans, \$19,428.91; tree grants \$56,042.50; total, \$149,112.03; capital account, \$192,120.50; grand total, \$41,232.53. Every object on which this amount has been expended would be all proved by the House. The Gov- ernment had been guided by the prin- ciple that as long as the public service and other expenditures can be pro- vided for it is quite proper that the money should go back into the hands of the people of the country. The leader of the Opposition would effect a saving of \$30,000 and how would he do it? He would cut down the cost of Executive government. In 1888 the s21,944.66 and in 1880 it was \$36,277, or an increase of \$14,332.24. How is this increase accounted for? General replied at great length to the state- ments made by the Opposition. He first stated that the Government were in perfect accord regarding the aboli- tion of the Legislative Conncil. The Government had approached the ques- tion in a way respectful to a body hav- ing a high position in the country, and intend during the present session to bring in a measure with reference to the Council, but having once mention- ed it in the speech it would scarcely be constitutional to allude to it there again. MR. RYAN AND THE COUNCIL. The Atty. General then alluded to the statement made by the leader of the Opposition that there could not be an independent vote on the question because there were members in the House with commissions and promised of seats in the Legislative Council The Provincial Secretary said there was not a member in the House why had a commission or a seat pledged to him, and he absolved any who had from secrecy in the matter. The member from Gloucester said he had been offered a seat by three member of the Government. If what the Sec retary had said would absolve him o not he would not question. The mem- ber from Gloucester said the offer had been made him, and the only condition was that he was to support the Gov ernment. He believed the three mem- ber from Gloucester said the offer had been to from Gloucester said the offer had been made him, and the only condition was that he was to support the Gov ernment. He believed the three mem-	If his friends had deceived him, it was a matter between his friends and him- self. If there was any secrecy in the matter, it had been violated long before by him (Mr. Ryan), and he was in- formed that, before he came to Fred- ericton, he stated he was offered a seat in the Council. Mr. Ryan said he did not wish to al- lude to the offers that came to him through bis friend and which he had always resisted. He met the Attorney General the first day of the session, who then handed him the telegram, saying we have considered the matter and as far as I am concerned it is all right. He thought the meeting with the Attorney General was appointed for the next night. The President of the Council told him the seat was at his disposal. He replied that he could not honorably accept it. He asked what the conditions were attached to it and was informed that he would be expected to support the Government. In reply to Mr. Young he said he had a conversation about the matter with a friend of his and said it might be left an open question, but if they had any one else not to keep the seat open for him. Hon. Mr. Fraser said the hon. gen- tleman stated what was incorrect. He never said that as far as he was con- cerned it was all right. It was a com- plete falsification on the part of the hon. gentleman. The statement must rest between his veracity and that of the member from Gloucester; and in	debtedness for debentures account \$912,000, the annual interest on which, at 6 per cent. will amount to \$54,720. The leader of the Opposition says the abolition of the Legislative Council would save \$12,000. This is part of the \$30,000 he would save. He then says the Executive Government in 1868 cost \$22,000, and in 1880 \$30,000, and that there can be a large saving in that respect. He said that the balance had been coming down and the Province is now largely in debt. On October 31, 1876, there was a balance of \$128,- 876.71, and the balance at the end of the fiscal year 1877 was \$96,757.60, or a reduction of \$32,119.11. How does th's reduction occur? That year there was a short session of the Legislative Council. In consequence of the fire in St. John it involved \$7,240.99. During 1877 \$50,000 was paid for the erection of the Normal School out of the ordinary revenue, and which ought to have been charged to capital account, making a total of \$57,240.99 taken from revenue account alone. If this had been left there would have been a larger balance in 1877 than in October of 1876 by \$25,121.88 or the total balance would have been \$153, 998.59. The balance on hand on Oct 31st, 1878, was \$40,920.31, or a reduc tion between 1878 and 1877 of \$55,837. 29. It might be asked how the reduc tion occurred.
