

Local Legislature.

(Continued from page 2.)

That this house, in view of the rapidly increasing debt and expenditure of the province, concurs in the opinion expressed and the resolutions passed at the conference held in the city of Quebec in December last, that an increased amount should be granted to the provinces for the maintenance of its government and its institutions but that this sum was not satisfied by the proposed change of financial arrangement censured in by said conference; this province will receive an increase in the amount to be paid by the Dominion government commensurate with the increased amount to be paid to other provinces of the Dominion."

Mr. Fleming seconded the amendment.

Mr. Pugsley replied at some length, maintaining that it had been necessary to spend increased sums of money in public works. He had heard with astonishment the statement made by the leader of the opposition that the proposed readjustment was unfair to New Brunswick. Instead of that being the case the larger provinces had dealt most generously with this province. New Brunswick would receive under the new arrangement \$1,33 per head of population while Ontario and Quebec would receive less than \$1. Surely in this case there has been no injustice to New Brunswick. With regard to the amount for the support of the government and legislatures, this province would receive \$180,000 a year while Quebec and Ontario with five and six times our population would receive only \$240,000 a year. Surely the principal contained in the resolutions that the provinces should receive 80 cents per head in their actual population in addition to this legislative subsidy was a most just one. As the population increases the demands upon the revenue increase and the burdens imposed on the government are greater. The original arrangement, which limited the subsidy of the larger provinces to the population of 1861, was not a just one. Neither was the arrangement which prevented the Maritime Provinces from receiving any further subsidy after they reached a population of 400,000. Some people thought it would be a long time before our population reached that figure, but we felt convinced that it would be reached and passed before very long. The provinces were prosperous and its young men were disposed to remain in it. He could confidently appeal to the house to support the resolution and vote down the amendment. The more the resolutions are studied the more satisfied they will become that the arrangement they embody is a just and equitable one and that in agreeing to it the people of Ontario and Quebec have shown a spirit of fairness which we ought most heartily to appreciate.

The debate was adjourned and made the order of the day for tomorrow.

The reports of the Auditor General and Public Works department were submitted.

The speaker announced that the committee to prepare a bill in reference to the secret ballot would be the Premier, the Attorney General, Hon. Mr. Hill and Messrs. Hazen, Legge, Clark and Clegg.

The bill to postpone the property valuation until 1898, and the bill to enable the conversion of the parish of St. David to an urban status.

A Prominent American Bishop Writes For the Benefit of Canadian Sufferers.

He Strongly Recommends Paine's Celery Compound. The Health Giving Spring Medicine.

Thousands of prominent clergymen in Canada and other lands through the use of Paine's Celery Compound are happily pursuing their pastoral duties and giving success to their congregations. Head trouble, sleeplessness, nervousness, sluggish and impure blood, weak digestion, constipation and headache are the troubles that drag clergymen down to deeper sufferings and penit. To-day Paine's Celery Compound is the chosen remedy and one of all wise and prudent ministers and priests. A vast number of them owe their lives and present good health to D. F. Paine's world renowned prescription for "make sick people well." Rev. John S. Michael, Bishop of Burlington, Vt., writes as follows:

"I have been asked why I recommend Paine's Celery Compound, and I am sorry to say that I do not know for this endowment, hoping that my words may inspire those readers who need health and strength with faith to try Paine's Celery Compound and prove to themselves its worth."

"At the Fahey Allen Hospital, an institution in which I am deeply interested, Paine's Celery Compound has been used successfully. The Sisters of Mercy at Mount St. Mary's Academy on Mainfield Ave. rely upon Paine's Celery Compound as a tonic and strengthener. In my own house one of the domestics has taken Paine's Celery Compound for over trouble of long standing, and says it has done more good than any other medicine." Several priests have spoken to me in praise of this remedy, and I believe it has the confidence of my associates. Even did I not know from personal observation of the worth of Paine's Celery Compound I should feel like praising it for the simple reason that it is prepared by the Well & Richardson Co., a firm whose members I have known for nearly a quarter of a century, and in whom I have perfect confidence."

house and farm which was of no use, so that the money might be applied to the support of the poor, were agreed to.

Progress was reported on the bill for the incorporation of the Baucus Electric Light Company.

Mr. Pugsley informed the house that there was every probability that the redistribution case will be argued during the present session of the supreme court.

Mr. Hazen gave notice of motion to suspend rule 84 in respect to the bill relating to the St. John's Horticultural Association; also notice of motion for a detailed statement in regard to the horse importation of last year. Mr. Glaser gave notice of inquiry in regard to the bridge at Waasis. Mr. Jones introduced a bill to amend the act incorporating Woodstock; Mr. Purdy a bill to incorporate the Maritime Christian Missionary Society.

Mr. Dunn presented the petition of W. E. Skinner and others, representing that the railway from Hampton to St. Martins had not been operated since December last, and asking that the company be called upon to operate.

Mr. Smith introduced a bill to authorize the municipality of Carleton to assess in aid of the Woodstock hospital.

The speaker announced that the committee to prepare a bill in reference to the secret ballot would be the Premier, the Attorney General, Hon. Mr. Hill and Messrs. Hazen, Legge, Clark and Clegg.

The bill to postpone the property valuation until 1898, and the bill to enable the conversion of the parish of St. David to an urban status.

Mr. Tweddle submitted the report of the commission on the revision and consolidation of the statutes.

Mr. Pugsley presented the petition of the Portland Rolling Mills Co. for a bill to enable them to construct a siding from their mills to the C. P. R.

Mr. Farris gave notice of motion in favor of the bill to incorporate the McDonald Corner Public Hall Company; also presented the petition of Robert E. Gilchrist and others that the bill might pass.

Mr. McKeown was sworn in Solicitor General at the House of Assembly this afternoon by Lieut. Governor Snowball.

You Can Depend Upon It.

When you get Kendrick's Liniment you get something you can depend upon. It is always the same and always reliable. Kendrick's Liniment is a home remedy and will be found useful in many ways in each household, to give to your Kendrick's Liniment.

McGALY'S BUTTERNUT PILLS.

They are the best Remedy for Liver Complaints.

RIFLE REPLACES SWORD.

Important Regulations Affecting Dress of Canadian Militia are Issued.

OTTAWA, April 4.—Certain important regulations affecting the dress of the Canadian militia have been issued. These regulations provide the militia with a simple service working dress. For officers of regiments who desire to have a mess dress or a ceremonial dress a pattern of dress is approved which is far less costly than the present pattern, so that young officers joining the militia will be put to less expense, but all officers at present serving in the militia will be allowed to wear their present uniforms until worn out.

Cavalry and infantry officers are to carry a carbine or rifle, and bayonet, for active service, and they may do so for peace services if they wish, provided all officers in a regiment are similarly equipped.

This will have a very far-reaching effect in making officers take a greater interest in the shooting efficiency of their outfit, at the same time placing in their hands a much more serviceable fighting weapon than the now virtually obsolete one.

THE SUCCESS OF A CANADIAN FLOUR AT BERMUDA.

(Halifax Maritime Merchant.)

Canadian flour seems to be making a good name for itself in Bermuda. The writer was shown a letter recently written by Edward J. Thompson, the leading baker of that island, to an importer in Barbados. Mr. Thompson said:

"Would Newfoundland then prefer to unite with the States?" "No, not now," Newfoundland then got a return from Canada she will not soon forget, and her experience at that time has destroyed all will for union. And would Canada?" Mr. Tobin went on, "Take us in, even though we want to join with her. We have a debt of 15 million dollars and Canada would be willing to take that on her shoulders. That was a done in its budget of \$1,000, the colony would have forced it to resign, but of late years some politicians think that the debt is good for a country, and hence the extent of our difficulties."

"Would Newfoundland then prefer to unite with the States?" "No, not now,"

in the last. We are British and have little fitting for the States. The States afford us a good market for our products, that is all, but we stand by the Union too."

Col. Sam Steele is angry.

Col. Sam Steele has written us a letter in regard to the Atlantic Co. in which he commanding B Division of the South African Constabulary. He was formerly the adj't of the Northwest Mounted Police, and commanded the Strathcona Horse against the Boers. Col. Steele is the subject of many an anecdote. There is scarcely a man in Canada who has not heard little stories about him, about his as a soldier, and a friend of nothing, or as a colonel of the St. Athanasius, fearless, unconventional, a hero in the eyes of his men. Perhaps the real Col. Steele's song and story. Undoubtedly he does not want to know this. Here is his letter:

Editor of The Star:—I was very much surprised to see in your issue of the 10th ult. such a tissue of ridiculous untruths about myself and my actions in South Africa. I suppose those who write such stories of me are of the type who consider it not like a call or whisper betray of the name of Steele or Will BH. In comes in company with others, and gentlemen like Sir George Bell and Lord Milner is highly commendable.

I think differently, and try to say for the benefit of my Canadian friends that I behaved towards all of the officers of the army in a manner that was from that of the 47th Regt. in the army.

NEWFOUNDLAND.

Mr. Tobin, of St. John, on Annexation to Canada.

Newfoundland may not be within the Canadian system, but its inhabitants are perfectly law-abiding and strong. It is a fact that Newfoundland is the only place that did not join the Confederation.

Mr. Tobin, however, can hardly be said to be sympathetic towards Newfoundland, writing to Canada:

"The colony to me is better suited to Canada than to Newfoundland. She will not soon forget, and her experience at that time has destroyed all will for union. And would Canada?"

Mr. Tobin went on, "Take us in, even though we want to join with her. We have a debt of 15 million dollars and Canada would be willing to take that on her shoulders. That was a done in its budget of \$1,000, the colony would have forced it to resign, but of late years some politicians think that the debt is good for a country, and hence the extent of our difficulties."
