## BRAKEMAN KILLED AT BARTIBOGUE.

Edward S. MacMurray met Tragic Death While Working on I. C. R.

KILLED INSTANTLY.

Was Making a Flying Shunt When He fell in front of Moving Train of Cars.

Newcastle learned with deepest sorrow Friday afternoon of the tragic death of Brakeman Edward S. MacMurray which took place at Bartibogue station about three o'clock.

The unfortunate young man, who was breaking on Con. Wm. Bovard's pulp special was engaged in making a flying shunt in the Bartibogue yard. As all know in making such a shunt it is necessary to shift the tracks quickly. This he endeavored to do when in some unaccountable manner his hands slipped off the switch lever and he lost his balance, falling on the track in front of the rapidly moving cars. He was struck on the head and killed instantly.

Word was sent to Newcastle where his father, Mrs. Robert MacMurray and mother and sisters reside, and the news soon broken to the family. It is only about eighteen months since Mr. MacMurray was killed in the Newcastle yard. The funeral was taken to West Branch, N. B. for interment. The funeral home in name of the deceased to the station Monday morning was largely attended. Burial at the house was conducted by Rev. H. Amey, assisted by Rev. P. T. Snell and H. Johnston. The pall bearers were: Messrs. Clifford M. Kay, Robert Smith, John Smallwood, Harry Graham and Wm. S. pp.

The deceased young man, who was much respected here, was 23 years of age. The bereaved family have the heartfelt sympathy of the entire community.

## FISHING BOUNTIES LAST YEAR \$157,228

Nova Scotia Got About Half of It and New Brunswick Only \$15,110.

Ottawa, March 24.—During 1904 the sea fishermen of the Maritime provinces received the sum of \$157,228 as bounties. The owners and crews of the 834 fishing vessels received \$70,113 or nearly half of the above total amount while the balance, \$87,114 was distributed amongst 29,678 boat shore fishermen. To cover these amounts necessitated the payments of no less than 12,671 claims. Eighty claims were refused payment as being fraudulent. For the past season the province of Nova Scotia received nearly double the amount of bounty paid to all other provinces, viz., \$99,596; Quebec, \$33,651; New Brunswick, \$15,110, and Prince Edward Island, \$9,179. Since its inception (1882) the sum of \$3,632,138 has been distributed amongst the fishermen of the above provinces.

## THE LARGEST MILLING CO.

It is claimed that the Oulivier Flour Mills Co. is the largest milling concern in the Empire. It has a daily capacity of 15,800 barrels, and a total storage capacity of 335,000 bushels of grain and 300,000 bbls. of flour. It has elevators all over Manitoba and the Northwest, and warehouses in Winnipeg, Fort William and Montreal. It is a great and flourishing company.

## GAME LAWS BEING ENFORCED

Prosecution of Offenders at Chatham and Tracadie Last Week.

FINES IMPOSED.

In its game the North Shore has a valuable asset and this is being more fully realized each year by the residents. That a few law breakers could kill game and escape detection or punishment was in the past admitted but now it is harder to make the nation of the law, especially when good wardens are appointed.

Last week a Chatham merchant was up before Police-Magistrate Cunniff charged with having a moose calf skin in his possession. He pleaded guilty and was fined \$10 and costs. The fine was allowed to stand for one month.

On the same day a Little Southwest man was up before the same court charged with killing a beaver. He pleaded guilty and was fined \$30 and costs. The fine was allowed to stand for one month.

A St. Lawrence resident was up before Albert Robichaud at Tracadie for killing a moose out of season. He pleaded guilty and was fined \$25 and costs. The costs were paid and the fine allowed to stand for a time.

Game Warden Robinson informs the Advocate that he has a few more cases which will come up later. Stephen Campbell the game warden of Polomouche is doing good service and is receiving the support of the residents of that locality in his work. Gloucester County people had the reputation of being unfavorable to the game laws, but Warden Robinson says that this is not the case as they seem as anxious to have their valuable asset preserved and he wishes through the Advocate to thank the residents of the part of the County he recently visited for the assistance and hospitality rendered him during the discharge of his duties.

## A DRY TOWN IS NEWCASTLE.

Scott Act Inspector Gallish Doing Good Work. -- Little Drunkenness.

Policeman and Scott Act Inspector Gallish is doing good work and tells the Advocate that Newcastle is a fairly dry town. Of course we do not pretend to say that the sale of intoxicants has ceased, but it is now quite difficult to obtain it and as a consequence there is not the amount of drunkenness which is usually witnessed at this season of the year.

Two more cases were up last week and another information was laid Monday.

## JUDGEMENT IN LOGGIE VS. MONTGOMERY

In the Equity Court this forenoon judgement was given in the case of Loggie vs. Montgomery et al. The defendants are Mr. W. S. Montgomery, of Dalhousie, N. B., and Mr. Richard O'Leary of Richibucto, N. B. Mr. Montgomery a short time ago purchased a lot of land in Loggieville in his own name, but for himself and Mr. O'Leary, with the intention of erecting on the same a store, and of entering into business in competition with the plaintiff. A water pipe from a certain spring to the plaintiff's mill ran diagonally through the lot of land purchased by the defendants. When the latter began to excavate they found the water pipe only two or three feet below the surface, and the plaintiff obtained an injunction to restrain the defendants from excavating, alleging that by so doing the water pipe would be damaged. The plaintiff claimed a sole right to the water pipe under two leases, and by prescription, but the court held otherwise, dismissing the bill with costs. Messrs. Tweedie & Haslam and Attorney General Pugsley appeared for the plaintiff; Mr. R. A. Lawlor, Mr. Geo. W. Allen and Mr. M. G. Teal for the defendants.—Globe.

DIED.

At Millstream, Northesk, on March 10th Maggie H. Travis, eldest daughter of Wallace and Annie Travis, aged 10 years and four months.

At Chaplin Island N. B. Newcastle M. ch 23rd, Catherine Farrell, relict of the late James Murray, aged 83 years and three weeks.

At Blackville on March 23rd, after a painful illness, James Mountain, aged fifty-five years, leaving a wife and six children to mourn the loss of a kind husband and father.

## JOHN MCKANE BUYS INDUSTRY

Has Purchased the Edward Sinclair Lumber Co's Plant and Property.

TRANSFER MADE.

New Manager Has Been Appointed and Business will be Carried on as Formerly.

Many friends of Mr. and Mrs. John McKane will be pleased to learn that Mr. McKane has made a purchase which will mean that he will become a resident of this section for at least a part of each year. Mr. McKane has purchased the entire property of the Edward Sinclair Lumber Co., including mill and residence at Bridgeport, all timber lands and other property and plant cannot agree above company. The purchase will be at the rate of \$100,000.

Mr. Duncan Cameron, until recently inspector of the Royal Canadian Mounted Police, has been appointed Manager for Mr. McKane and expects to report on his duties in the course of a few days.

Mr. McKane is a multi-millionaire who made vast sums in Nevada gold and silver mines, in which he has large interests. He was formerly a manager of the Royal Bank of Canada and it is to his untiring energy and ability that the above institution owes much of the success it has achieved here. He resigned some years ago and went West. Friends from time to time heard of his achievements but it was not until the Nevada Goldfields and Tonopah that he came into prominence in the United States financial world.

Mrs. McKane is a daughter of the late Edward Sinclair and has lost a friend on the March 24th who will look forward with pleasure to the time when she will again reside amongst them.

During Mr. McKane's recent visit he, with his usual open hearted generosity, assisted some of Newcastle's needy, in whose hearts he has always held a warm corner.

## IT PLEASES ITS PROMOTERS

Temperance Legislature Passed by Government Pleases Temperance People.

The temperance people are highly pleased with the amendments of the liquor license act. Copies of the amended act show that they got all they were promised by the government. Interviewed by the Times this morning Rev. Thos. Marshall said:

"The bill as far as I understood it does all the government promised to give us. We believe as evidently the liquor dealers believe, judging by their opposition to it, that it will very materially help in the enforcement of the law in the Scott Act counties, and is a step in advance in the way to prohibition. We asked, it is true, for more but the government did not encourage us to believe we would get more than we have received and they have kept good faith with us from our first interview with them in the month of January this year.

"Some misconception seems to have arisen as to the origin and form of the bill now passed. The Temperance Federation through its officers called the attention of the government to the evils resulting from persons licensed by the government sending liquor into Scott Act counties, especially emphasizing the evils of the C. O. D. business. It was urged that the government should not allow their licensees to violate the Scott Act or aid others in doing it. The government gave the request a very courteous consideration and promised to prepare legislation to meet the difficulties to which their attention was called. They prepared and introduced a bill to carry out this purpose.

The liquor dealers and the Temperance Federation were granted the fullest opportunity to state their several views on the request of the counsel for the dealers, to which we agreed, a second hearing was given them, at which we were also present and took part. Several amendments were suggested by us, the principal of which were embodied in the bill passed by the legislature.

Personally whilst I believe that the country would have amply sustained the government in going very much farther in the matter, yet they deserve the approval of temperance people for what they have done and my conviction is it is a material gain to show the temperance cause.—S. John Jones.
