Three Branches of Hydro Line Ready by January.

Will Hamilton Adopt Auto Street Flushers?

At the present rate of growth it looks as if it would not be long before the Board of Education will have to deal with the question of enlarging the Col legiate Institute building. The number of pupils enrolled each year has been steadily increasing and before the end of next month practically every available inch of space will be occupied.

The third form at the Collegiate is so crowded that a new class will have to be organized and another teacher appointed. The old manual training quarters will be used as a classroom. The domestic science room is being equipped as a junior laboratory, and this disposes of practically all the equipped as a junior laboratory, and this disposes of practically all the spare room in the building. The assem-bly hall on the second floor will always be retained for the purpose intended, and when more class rooms are re-quired the only thing left to do will be to enlarge the building.

Three of the main branches of the Three of the main branches of the Hydro-Electric power line will be completed by the end of the present year. Niagara to Dundas, 55 miles; Dundas to Toronto, 36 miles, and Dundas to Guelph, 30 miles. On the other lines over 50 miles more will be strung with wires. The first three are being hurried to the transformer, attations will be as the transformer stations will ready at the four points, Niagara, Dun das, Toronto and Guelph, before the ready at the four points, Niagara, Dundas, Toronto and Guelph, before the rest. St. Ann. where the pitchfork fracas occurred a week ago Saturday, is being used as a centre for the work on the Niagara-Dundas line, just as Rymal is, for both are crossed by railway lines and the towers and other material are thus easily brought in. Between Toronto and Dundas three gangs are at work east and west of Oakville, and work will be begun on the Guelph line next week.

line next week.

The programme for the Public Schools annual games is out. They will be neld at the cricket grounds on Friday, October 8. The Public School sports begin at 9.30 in the morning and the Collegiate and commercial games at 2 o'clock in the afternoon. There are fifty-eight events. Bobby Kerr will officiate as time keeper.

If the experiment of using an auto-truck, fitted with a water tank for street flushing, proves a success in To-ronto, Hamilton may adopt the scheme. Dr. Sheard says the new truck will cover the work of three flushing wagons It costs now about \$3,000 to run three flushing wagons for 20 weeks. One auto-truck will cost \$1,200 for that time.

Miss Atwood, a Smithville young lady, who is also a nurse in the same hospital as the Misses Martin and Milford, thinking they had left Hamilton by the ill-fated train, notified the hospital authorities, and they instructed her to wire here, hence the anxiety which prevailed, until definite assurance was received that the round ladies were received

(Grimsby Park, Sept. 27.—There is evidently trouble brewing for the Cleveland Realty Company, and it will not be all clear sailing in closing a deal with the cottage holders. Not many weeks ago everything seemed to be cut and dried, but now there leaks out that quite a number of those who were absent from the meeting refuse to sign the agreement with the rest.

From all reports these are but a quota, but their attitude if persisted in will effect any and all negotiations.

Alton railroad, president of the Toledo, St. Louis & Western railroad, a director of many other important companies and one of the most potent figures in the financial and business life of the city, has been sued for \$200,000 damages by the husband of a woman whose affections he is charged with having alienated.

Through his lawyer, De Lancey Nicholl, Mr. Shonts declares he is the victim of one of the strangest cases of mistaken identity on record.

It would seem, according to Mr. Nicoll, that the president of the Inter-Met. has some doubt of whose misdeeds Mr. Shonts is being held responsible. As to who this double is there is no hint.

The suit against Mr. Shonts is brought by Frederick Hipsh, the New York manager of a Kentucky distillery, with offices in the Flat Iron building. Mr. Hipsh, while not a man of large wealth, has a comfortable income.

According to Mr. Hipsh his wife met Mr. Shonts at Narragansett Pier in 1907 and afterwards in this city. On behalf of Mr. Shonts it is declared that his acquaintance with Mrs. Hipsh was most limited and confined to the conventional courtesies which any gentleman pays to a lady whom he knows only casually.

On the other hand, Mr. Hipsh in his complaint charges Mr. Shonts with conducting an intrigue with Mrs. Hipsh for over two years.

Mr. and Mrs. Hipsh spent the sumper at Asbhure Park.

with conducting an 'ntrigue with Mrs. Hipsh for over two years.

Mr. and Mrs. Hipsh spent the summer at Ashbury Park. On August 2 Mr. Hipsh found a telegram to his wife asking he tor meet some one. The telegram was unsigned but on the strength of it Hipsh hired detectives and got evidence, he says, a message from Dr. Precentes A. Cook to the Ottawa Free Press, in response to an inquiry as to the delivery of supplies for Dr. Cook by Captain Bernier, in charge of the Canadian Government stea-mer "Arctic," now cruising in the north,

the strength of it Hipsh hired detectives and got evidence, he says, on which he began his suit. Mr. Nicoll says that on August 2 Mr. Shonts was sick in bed in care of Dr. Wolfe, and a trained nurse.

On Thursday Mr. Nicoll had a two hour conference with Mr. Hipsh and his lawyer, Mr. Harrington, and told them of his willingness to produce Dr. Wolfe and the trained nurse to satisfy the husband that his charges against Mr. Shonts were most unjust. At this conference Mr. Nicoll declared most emphatically that Mr. Shonts had no more to do with the trouble of the Hipshes than the man in the moon. charge of the Canadian Government steamer "Arctic," now cruising in the north, indicates that Captain Bernier met with unfriendly treatment at the hands of Boatswain Murphy, of Peary's crew. Dr. Cook wires from New York, "Bernier brought supplies sent by Mrs. Cook. Left acm at Etah in care of Harry Whitney on August 20, 1908. Bernier asked for Esquimaux and dogs and was refused by Murphy. In Bernier's letter Beechy's Island, Lancaster Sound, was given as his next winter station. See Whitney on Jeanie now at Battle Harbor, Labrador.—Frederick A. Cook."

in the moon.

He insisted that it was a case of mistaken identity, and that Mr. Shonts would have no difficulty in proving his absolute innocence in court. He said it was a cruel outrage on an innocent man to force him to defend himself against charges of this kind. PEAR-S PLAN OF CAMPAIGN.

Bar Harbor, Me., Sept. 27.—Pending the conference to-night between General Thomas H. Hubbard, president of the Peary Artic Club, and Commander Robert E. Peary, on the proofs which Commander Peary has to support his position on the question: "Has Cook been to the pole?" no new phases on the Peary side of the Cook controversy are expected to develop. Commander Peary will reach here from Partland to-night and go at once to the home of General

kind.
Mr. Nicoll's declaration made an impression upon Mr. Harrington, Mr. Hipsh's counsel, and he said to-day: Hipsh's counsel, and he said to-day:
"I am now examining a number of
witnesses who are absolutely disinterested. I appreciate fully the importance of this matter and if by any
chance it should be established to
my satisfaction that Mr. Shonts is
the victim of mistaken identity the
suit against him will of course be
dropped." Gen. Hubbard has thoroughly acquainted himself with the Peary proofs which he has had under examination for several days and is prepared to outline a plan of campaign and procedure in the controversy with Dr. Cook. While seemingly quiescent the friends of Commander Peary say they are preparing to establish Commander Peary's position in a manner that will be convincing to those who desire to consider the facts in the Polar question. Mr. Andrew Martin, 87 Smith avenue, received a letter on Saturday evening from his daughter, Miss Ethel Martin, a nurse in the State Hospital, Trenton, N. J., with the good news that Miss Milford and herself were well, and were not in the railroad wreck at Tonawanda, last week, as was at first supposed.

It will be remembered that Miss Martin had been on a visit to her parents here, and Miss Milford had been visiting her friend, Mrs. Soucier, 36 Fullerton avenue. ### WEEKLY RAID IN NORTH EAST

Large Quantity of Liquor Seized by the Police

At the Home of John Sugar, Rosedale Avenue.

Another Foreigners' Boarding House Searched.

There was another raid on foreigners oarding houses on Saturday night by the police. Despite the fact that these raids have become weekly occurrences. the foreigners apparently continue to get in the usual abnormal supply of iquor, heedless of the warnings given them and the recent heavy fines im posed on previous offenders by the magistrate for breaches of the liquor

In making these raids the police are doing a good work, for almost every stabbing affair lately has been the aftermath of one of the usual Saturday aftermath of one of the usual Saturday night Bacchanalian orgies, which have been so prevalent. Though the prac-tice has not been completely stopped, the signs are hopeful that it will be greatly reduced, for the police are de-termined to keep a close watch on the offenders. ermined to keep a close watch on the offenders.

That was fortunate for Signor Tal-mir, for his worship said this morning, "If I had sentenced you on Saturday I would have given you a year.
