OCEAN LINER IS RAMMED

Olympic of White Star Line Run Down by Cruiser Hawke.

Southampton, Eng., Sept. 20-The steamer Olympic of the White Star Line which left Southampton shortly before noon today with a large crowd of returning American tourists, lies tonight off Calshot Castle at the entrance of Southampton water with a gapling hole in her side as a result of a collision with the British Protected Cruiser Hawke. Fortunately no lives were lost and of the 2,000 or more passengers and crew of the ship not one was even injured. There also was no panic.

The accident occurred a few miles from the spot where the American Liner St. Paul and the British Cruiser Gladiator collided nearly four years ago and as in the previous case the warship came off second best, so far as can be ascertained tonight. The extent of damage to the liner cannot be decided until she is docked and an examination made of the rent which

the cruiser's ram cut in her side. The Olympic left her dock at 11:20 o'clock this morning steaming at a moderate speed eastward on her way to Cherbourg to pick up continental ssengers. She already had on board arly 1,700 persons, exclusive of the crew. The first cabin passengers were just answering the call to lunch when attention was attracted to the Hawke which was undergoing steam trials. The warship moving at great speed The chairman of the executive comfollowed the liner, but apparently was mittee which has J. H. Ashdown's quite clear of her. Suddenly she swerved in and before the passengers could realize what was happening struck the liner on the starboard quarter near the stern, tearing into a section about forty feet in extent. The Hawke is fitted with a ram especially designed to sink a vessel in spite of its water tight doors which automat-ically close, held the compartments hermetically sealed. The Olympic listed slighty to star-board, but not to a sufficient angle to

cause any serious atarm and the officers quickly reassured the passengers. A Large Rent. a size, however, that the passengers on a smaller steamer passing at the time could see right into the interior of the vessel. So far as can be learned, the Hawke

dock.

The cruiser proceedd to Portsmouth under her own steam.

The White Star Company despatched tenders for the passengers desiring t land, but only seventy took advantage of this.

Cause of the Disaster Many theories are advanced as to the cause of the collision, but gener-ally the warship is blamed. It is suggested that the cruiser's steering gear leading to a hoisting engine on a failed to act. The naval officers and the officers of the Olympic are withSt. Joseph river, near here. The enthe officers of the comment until the enquiry. gineer, John Boyer, of Mishawaka, which the Admirality will institute Ind., was killed as he grasped the which the Admirately is held.

Cherbourg, Sept. 20—Passengers to the number of 434 waiting to embark the number of 434 waiting to embark dropped dead when he threw his arm here on the Olympic have been sent back to Paris.
