REID NEWFOUNDLAND COMPANY.

 Is your house really lighted from top to bottom or do you still have
 to take a candle or lamp when you go to the attic or cellar at night?
 A great many people who have electricity in the rest of the house
 have no light in the cellar or attic because it is seldom needed; but, when
 you do need it, you need it badly.

One Incandescent Lamp set in a Holophone Reflector will give suffi-
 cient light for the darkest cellar or attic. Holophone Reflectors are
 especially adapted to lighting places of this sort as they control the light
 rays so that every ray is utilized. Wouldn't it be a convenience if you
 could turn a switch and light your cellar or attic before entering? That
 means an end to dangerous matches and flames—it means that you no
 longer need stumble against misplaced boxes and bark your shins in the
 dark.
 We would like to tell you more about electric lighting and more about
 the wonderful light-saving Holophone Reflectors. May we send a repre-
 sentative to see you?
