be done and has been done. The most striking case in modern times of these marks, or stigmata, appears in a well-known text-book. A her little girl was playing inside the house, by the open window of a room looking on the garden. The mother looked at the child and smiled at her. Suddenly she saw the sash lines of the Beef, Choice Family. heavy window frame had given way. The child's right hand was stretched out on the sill; down the great window rushed upon those tender little Bacon, Good Grade, fingers. The mother, if I remember, fainted away. Luckily as it happened, the child had drawn her hand in with some fraction of a second to spare, and no harm was done to her. But the doctor was called in to the mother, and found the fingers of her right hand in precisely the state they would have been in if her hand had been on the window frame had crashed down upon it. These fingers were red and Small Onions . . 6c. lb. swollen and terribly painful, and to the best of my belief the flesh broke as it would have broken if the injury had been inflicted in fact, not merely
