Fearful Devastation in the Pennsylvania Oil Regions.

Titusville and Oil City Visited by Cloudbursts.

While Fierce Fires Add Terror to the Scene.

Scores of Persons Reported to Have Perished.

The Damage to Property Almost Incalculable - Scenes of Horrer and Dismay-Names of Some of the Victims.

Pritsburg, Pa., June 5.—The oil region was visited by an awful disaster of flood and fire this morning. There was a cloud-buret at Titusville and another at Oil City, and both cities were inundated. To add to the horror several refineries were struck by lightning and property not destroyed by water was consumed by fire. At Titusville four of the largest refineries took fire and a stretch of at least one-half mile in length is burning.

and a stretch of at least one-half mile in length is burning.

The flood appears to have been general throughout Northern Pennsylvania. A telegram from Meadville says the gorge which formed in a deep ravine north of the town, forming a lake of three acres and twenty feet deep, broke and swept half the city. The New York, Pennsylvania and Ohio Railway east of Meadville is damaged beyond estimate.

TERRIBLE LOSS OF LIFE.

beyond estimate.

At 4:30 o'clock this afternoon a telegram was received from Titusville placing the loss of life at 150 in that town. The water came up suddenly from Oil Creek and flooded the whole flat as far as Spring street, forming a lake nearly half a mile in width and about two-thirds of a mile, in length. The Acme oil refinery was struck by lightning, and fire added terror to the scene. The flames spread with rapidity, and soon lightning, and fire added terror to the seen. The flames spread with rapidity, and soon the ve blocks from Perry to Drake streets were laid waste. A half dozen of the largest oil refineries were burned. The only buildings said to be now standing in the district mentioned are the Titusville iron works and the depot of the W. N. Y. and P. Railroad. The water began to recede about noon and is now going down rapidly. Two HUNDERD VICTIMS.

AN UNPRECEDENTED DISASTER.

OIL CITY, Pa., June 5.—Nover before in the history of Oil City and the oil country there been such disaster, excitement and turmoil as this city is now witnessing. At 11:45 this morning the city and country for miles around was startled by two almost simultaneous explosions. Oil Creek was a raging torrent, and in Centerstreet a crowd of people stood watching the middly waters rolling by. When about 200 yards up the stream a mass of flame was seen to shoot heavenward. "Run," said a hundred voices, and the people started for the bills. Hardly had they started when a terrific explosion rent the air, and the entire creek and for hundreds of feet on each side seemed one mass of flame and smoke. In their efforts to escape women and children were trampled under foot and many were severely bruised. About half a mile northward from the postoffice on the Western New York and Pennsylvania Road a tank filled with gasoline exploded.

A hundred Feet into the Air,

A HUNDRED FEET INTO THE AIR, and the earth seemed to shake with an awful tremor. The engineer and fireman, it is supposed, were burned to death or killed by the force of the explosion. Flames swept over the entire upper part of the city, which is flooded by the oily waters of the creek. Men, women and children who were moving from their houses were caught by the deadly flames, and if not burded to death were drowned in the raging torreit. in the raging torrent.

LATER.

PITTSBURG, June 6.—The disaster in the oil regions of Pennsylvania yesterday is only eclipsed in the history of this country by the memorable flood at Johnstown just three years ago. It is safe to say that not less than 150 lives have been lost. Nearly 100 bodies have already been recovered and many people are still missing. The number far exceeds 150, but this is regarded as a conservative estimate. The property loss will reach far into millions. At Titusville the loss is estimated at \$1,500,000; Oil City, \$1,500,000; Corry, \$60,000; Meadville, \$150,000, and the surrounding country probably \$1,000,000 more.

A tank owned by the Pennsylvania Refinery Company, of Seneca street, is in danger of exploding at this writing. It contains 25,000 barrels of oil, and if it catches fire the entire upper end of the town will be burned. The loss by washouts and destruction of bridges will be enormous. There is not a county or township bridge for many miles that is not washed out. The roads in every direction are nearly innassable. The Western, New York and Pennsylvania, and the Union and Titusville railroads have not attempted to run trains, and will be obliged to spend an enormous amount of and the Union and Titusville railroads have not attempted to run trains, and will be obliged to spend an enormous amount of money before trains can be run in any direction. OIL CITY, June 6—2:15 p.m.—Few of the spectators who were watching the flood when the explosion occurred and escaped can give a good idea of what happened. All agree that there was a terrific explosion and that the whole air filled with flames. This was quickly followed by two other explosions. The gasoline tanks exploded almost at the same time. The oil in the creek blazed up, the gas in the air burst into a roaring flame, the water and air were instantly in a blaze, men, women and children were knocked prostrate by the shock, and many never arose. The multitude with screams of anguish hurried for the high ground. In the rush, many of the weakerones were trampled upon and badly injured. Some were hurt by horses, and others ran and leaped into the water and were drowned. The partly-submurged houses and shops along the creek bottoms were soon in flames. In many of these houses the people could not escape on account of fire. Within the sight of thousands who heard their pitcous screams, they burned to death or leaped into the river and perished. It is marvellous that from this valley of death any were saved alive or that houses escaped destruction.

An APPALLING SCENE.

AN APPALLING SCENE.

A correspondent, writing of the scene, says: "Oil Creek, now swollen to 500 to times its natural size and reaching from one hillside to the other, presented an appalling picture. Floating swiftly by on its bosom were all sorts, manners and kinds of animals, inanimate objects, tanks, stills with the steam in them and blowing off, house, barns, horses, cows, chickens—everything almost being borne onward with a rush. Clinging to various objects, such as driftwood, pieces of boards, timbers, and any other object they could lay hands on, were scores of human beings, their white, terror-stricken countenances, desperate struggles and plaintive, soul-piercing cries for aid all combining to create impressions in the mind of the beholder never to be effaced or forgotten.

One father to-day is a maniac over the loss of his whole family of wife and seven children, one a babe four days old. A brother was rescued from a burning building, where he was forced to leave a sister, her husband and two children to perish. Many such cases, sad in the extreme, are heard. Many are the fathers, mothers, sisters and brothers wandering aimlessly in search of missing ones who in all probability will never again be heard of.

omments on the Unlooked-For Event-Mr. Blaine's Action Considered Fatal to Republican

WASHINGTON, D. C., June 5.—Washington was startled yesterday by the announcement that Mr. James G. Blaine had tendered his resignation as Secretary of State. It appears that Secretary Blaine's resignation was taken to the White House by his private secretary, Mr. Dent, a little before I o'clock and fifteen minutes after it was written. Soon after reading it the President descended to the east room and held his usual Saturday afternoon reception to the public. There were about 200 people present, not one of whom, as he shook the President's hands, could have told from his cool and collected manner that anything unusual had happened. The reception over, the President returned to his library and addressed a letter to Mr. Blaine accepting his resignation. Private Halford took its read Mr. his interry and addressed a letter to Mr. Blaine accepting his resignation. Private Halford took it over to Mr. Blaine's house and placed it in his hands. Thus the whole transaction did not consume more than an hour's time. The following is the corre-

The agent for the Associated Press called at Mr. Blaine's residence shortly after the correspondence had been made public and asked him if he would not supplement it with an explanation. Mr. Blaine replied: "The correspondence explains itself and I have not a word to add to it."

said, received with all candor by the President's expectations concerning the Secretary, he acted with great promptness in accepting the resignation. It is stated that he will remain a resolute and determined candidate to the end at Minneapolis. He is said to be confident that he will be the party's nominee for the coming campaign. The sensational method that Blaine took to enter the Presidential race has, however, changed the prevailing sentiment here. The defeat of the President is practically conceded, but many of the Republicans who speak most confidentially of Blaine's nomination privately give expression to grave fears that there is a division in the party that cannot be healed, and that Blaine will not be elected. It is now plain that the leaders who have been championing Blaine's candidacy were sure of their ground, that all seeming harmony in the Cabinet between the President and Secretary was really an armed truce, and the Cabinet between the President and Secretary was really an armed truce, and the eminence of Mr. Blaine's official station has been used by him to build up and maintain his political fortunes to the detriment of the President.

Col. Fellows (Democrat), of New York, could see no other reason for Mr. Blame's resignation other than that he wanted the nomination. His general observation was that Mr. Blaine would be willing to take the nomination if tendered to him.

Just as Col. Fellows finished speaking a New York Republican (Representative Curtis) came up and Mr. Fellows said to him: "What do you Republicans mean?" Mr. Curtis responded: "It will take the nomination out of Indiana, but Blaine will not get it."

MINNEAPOLIS, June 5.—The resignation of Secretary Blaine struck Minneapolis like a typical western cyclone. Nobody was prepared for it, and everybody was glad when it was over. It is shouted in the lobbies, whispered in the conferences of dark rooms, and sung in doggerel rhymes by exultant admirers as they parade the streets of the convention city. Everywhere it is "Blaine, Blaine, James G. Blaine." The man from Maine was always popular in the Northwest, and it needed but a spark to ignite the flame. No man now asserts—not even the Harrison leaders—that Blaine will decline the nomination. The Harrison men openly accuse Blaine of treachery. The Blaine leaders reply that Blaine owed nothing to the Administration; that the glory of his mame and deeds only added to the luster of the Cabinet, and that an Administration which he had honored could have no possible mortgage on his political
