### The Lost Fieet.

St. Petersburg, Aug. 16, 1:30 a.m. St. Petersburg, Aug. 16, 1:30 a.m. — ets. The Germans have notined the captain that they will fire on any ships entering the harbor at night without lights. Every precaution is taken to guard against a repetition of

Arthur battleships is still a mystery, on which hinges naval fortunes in the from Tsing Tau after the battle of Far East. Telegrams reporting them Aug. 10. back at Port Arthur have not been confirmed up to this hour.

It is apparent that Vice-Admiral Togo either cannot or will not say where they have gone. Admiralty officials declare they do not know, but they isfied with the latter's course toward refuse to believe that out of five battleships not a single one managed to break through to Vladivostock. Vice-Admiral Togo's report of his

own damages mentions only a few ships, which is believed to indicate that the others have not rejoined lis fleet. It is more than probable that Admiral Withoft, before going out, Admiral without, before going out, fixed a rendezvous to which the vessels would proceed if separated, and it is likewise more than probable that is likewise more than probable that at Port Arthur, the most likely point at Port Arthur, the most likely point being between Shanghai and Kiusiu the most southerly of the three printing of the sinking of the Rurik.

## BIRD ISLAND NOT ANNEXED BUMPER CROP IS PROMISED

Reports From Western Wheat Fields Encouraging.

RUST IN CERTAIN SECTIONS

Not Expected That It Will Make Any Appreciable Difference in the Yield.

Winnipeg, Aug. 16.—From numerous eports on crop conditions in Western Canada there is no doubt that rust has attacked the wheat in several sections, and on the strength of this exaggerated reports have been sent to Chicago by local grain men, which would seem o indicate that considerable damage would result. The leading grainmen here, however, assert that any damage which can arise from this sources will have little or no effect in causing a reduction of the yield. there is more or less rust, but no ap preciable harm has been felt in the

total yield. From nearly every marketing center come advices that the present condiion of the crop is almost ideal, and that a bumper crop is assured, always provided that early frosts are not experienced. In many cases the plant is exceedingly well grown, with the head well filled and the berry larger than usual. The rust has affected only the stalk and blade, and that only to a small extent.

George R. Crowe, of the Northern levator Company, stated that reports eceived from the company's numerous gents throughout the country indiate a crop of the highest grade, proided that early frosts are not experienced. If the present exceptionally ine weather conditions continue for the talance of the month the crop will Harvesting has commenced in some

ections already, but will not be general until from the 20th to the 25th, On the latter date there will be a ful noon, and the trade expect that if any frost is encountered it will be then That date over without frosts, no furher drawbacks are expected. In the Far West the dry spell had no damaging effects generally, The superb weather for the preceding part of the season has brought the grain to a very advanced stage.
