Central **British** Columbia

The Land of Last **Great Opportunities**

The majority of people scarcely know that there is a "Central" British Colum-

We are accustomed to think of everything north of Ashcroft or Kamloops as "Northern British Columbia." This is a great mistake.

British Columbia is the largest province in the Dominon of Canada.

But of all British Columbia, there is well as a vast area of agricultural land; decided to make the amount \$60. there is, therefore, only one part that is capable of supporting a vast population.

This is Central British Columbia-that great Inland Empire which lies between the Rockies and the Cascades, through and into which several other lines of railway are building.

The Official Publication of the Grand Trunk Pacific Ry. States:

"It is probable that no other area in North America can equal this portion of British Columbia in her natural resources. It'is in truth a northern Eldorado, which climatic conditions have in the past been supposed to be severe during the winter season, but the fallacy of this impression is rapidly being made known on account of the reverse conditions actually existing due in large translations. g, due, in large part to the proximity this territory to the Pacific Ocean and the influence of the Japan current.

MINERAL WEALTH.

Central British Columbia possesses in ne Carboo and Findlay River districts that are in all probability the richest what are in all probability the r meral deposits on the continent. contains numerous deposits of coal splendid quality.

contains an area of millions of acres of agricultural land.

WORLD'S LAND HUNGER.

discussing the food needs of the In discussing the food needs of the fast-increasing population the world over. P. A. O'Farrel, United States pure food commissioner, in the New York World of Nov. 7, said: "When Lincoln was elected, there were 31,000,000 people in the United States. Next year's census will tell of 93,000,000 inhabitants. As James J. Hill forcibly said, the day is fast approaching when the farmer will be king, and when there is land hunger will set the price of the necessities of life.

"France alone among nations," continued, "has put agriculture in the forefront of all industry, and France is spector McCallum, supreme and alone among nations in her Secretary Bennett. economic and financial strength. and today in France for \$1,000 "The day of cheap farm land is vanish

"And this leads me to say that Western Canada and British Columbia are the last great and valuable divisions of the world eft for the white man to transform from wilderness to smiling and fruitful coun-

LAST GREAT WEST.

*Western Canada has 200,000,000 acres of the richest wheat and pasture lands waiting for settlement. British Columbia has 50,000,000 acres of rich land waiting to be transformed into orchard, meadow, garden and grain field. These 250,000,000 people, acres of virgin land can be made to produce food to support 200,000,000 people, And within 29 years this great undeveloped area will all have to come into cultivation to meet the rapidly-expanding the county of the county of the witness, Dr. W. S. Grimes, had of the witness, Dr. W. S. Grimes, had striven to weave a strong web of damaging evidence around the defendant, in the morning session, saw it torn to shreds a few hours later. Attorney the county of the witness of the witness, Dr. W. S. Grimes, had of the witness, Dr. W. S. Grimes, had striven to weave a strong web of damaging evidence around the defendant, in the morning session, saw it torn to shreds a few hours later. Attorney the county of the witness, Dr. W. S. Grimes, had of the witness, Dr. W. S. G

"And let me tell The World that the most glorious country of the future is British Columbia. It covers an area greater than the British Isles, Belgium, Holland, Denmark and the German Empire combined. Its climate is superior to that of England and France, and indeed to that of any country on this earth of ours. Its fisheries are the most abundant of any nation on this or any other continent. It has 182,000,000 acres of standing timber of priceless commercial value.

Robert Small, a horse dealer, for \$150 questions at the witness in a manner that was at least disconcerting.

Taking up the hypothetical questions, one of which occupied more than three pages of typewritten copy, that had been put to Dr. Grimes during the morning session, Lodge gained an admission that so far as Dr. Grimes knew, Maybelle Millman had not been the victim of the treatment

revenue of the country is supplied from royalties. Expanding revenues and inereasing surpluses is the story told year after year to parliament by its finance minister. The Government is suffering

from an embarrassment of riches." Fort George
