San Antonio, Texas, March 9.-In spite of the fact that the sun was hidden today, for the first time since the Tigers opened training quarters here, about 500 fans were treated to an exhibition of baseball that would have done credit to July 9 instead of March 9.

Few games in mid-season are played in an hour and a quarter, but today's jaunt was so full of ginger that the players were "washed up" in time to get into the dining-room first.

Played Clean Game.

Detroit took the game by a 4-to-1 score. Both teams showed much improvement over Sunday. The Bronchos, with the kinks pretty well straightened out, put up a fair fight, although a bobble in a critical stage allowed the Tigers two runs.

The Tiger youngsters again played a clean game in the field, the only slip being by Stanage, who dropped a third strike, allowing a base. Stanage arrived last givin and eaucht the last three innings.

Detroit, March 10.—Jeff O'Connell, of Chicago, had a shade the better of Tommy Dougherty, of 'Philadelphia, in the main event at the Windsor A. C. last night. Everything considered, the boys didn't put up the battle that was expected of them, and for the first time since boxing has been tolerated in Windsor the principals were hissed for their indifferent work.

It was not until the seventh round that they appeared bent to give as little acting as possible, and at times even made it works by continued smiling. But when the dissatisfaction became general in the crowd, and they let their displeasure become known in no uncertain tones, the boys hit up a faster pace and put more fighting into the last two rounds than had manifested itself in the six previous rounds combined.

NAPOLEON LAJOIE, FIRST BASEMEN

Fandom will keep tab on Napoleon Lajoie this summer as never before.

The big Frenchman will attract more attention than in the days when he was steering his baseball bank over the troubled waters, as manager. For ze gret Napoleon is to play first base instead of the station where he made his name famous wherever ash meets horsehide.

The Cleveland club is lucky in having a first baseman like Geo. Stovall, who last season gave Hal Chase a close run for honors, albeit he does not play so deep a field or handle himself so gracefully as the peerless one.

But even with such a man as Stovall, Manager McGuire decided to play Larry at first. This is an indication of the "Deacon's" opinion of his star infielder's ability. When a manager deliberately shifts a man, recognized as the greatest second baseman in the game, to another position and deposes a star to make room for him, he must have a high opinion of him.

opinion of him.

At that Lajoie has, in the past, demonstrated that he can play a wonderful game at the initial sack. When forced to play the bag during Stovall's incapacity, he revealed flashes that made even the great Chase open his eyes.

The reason for chasing Lajoie to first is found in the inability of Terry Turner to play short. It is McGuire's intention to send the white-headed whirlwind to second, where the short throw will not strain his arm, and fill in at short with one of the numerous candidates he has in his camp.

If, by any freak of good fortune Turner should come back to his old form McGuire will, of course, play him at short, and send Lajoie back to second, but it is believed Turner's arm will never again stand up under the demands of the long throw, so he will probably be seen at second, and the "big fellow" at first.

That McGuire is banking upon Larry for first is apparent from the photographs taken at Alexandria, La., showing him practicing at first.

New York, March 9.—The selection of the Emeryville race track, near Oakland, which is across the bay from San Francisco, for the Jeffries-Johnson fight on July 4 is the result of some fine wire pulling by Rickard and Gleason, the promoters who have refused to be held up moters, who have refused to be held up

in excess of the purse and expenses.

Won't Be Held.

Rickard refused to be held up in this manner, with the result that when Thos.

H. Williams, owner of the Emeryville track, received a hint that he could get the fight, he jumped at a chance to re-cover the losses incurred by the race meeting which has been running at Oak-land all winter, Emeryville is a township which in-cludes the race track property. It has its own mayor and police and enjoys the

room for 3,500, but new stands will be constructed to accommodate 30,000 more, at least, Rickard says.

The ring will be pitched in the infield not far away from the judge's stand and the crowd will surround it on all sides. As the track is outside the city limits, the law permits a 45-round fight.

Fighters Approve Choice.

Jeffries and Johnson, when notified today that the battle ground had been selected expressed satisfaction with the plans. Jeffries, who is in Los Angeles, said he would have refused to light outside California. He confirmed the report that he had chosen a place in the mountains, near Santa Cruz, for his regular training camp and said he would begin active work on April 1. Johnson already has engaged quarters near San Francisco and will begin training on May 15. Big Tim Sullivan, the permanent stakeholder, received a telegram today from Rickard stating that Emeryville had been finally chosen and that work on the big arena would begin as soon as the winter race meeting ends early in April, Rickard also declared there was nothing left to be done except the posting of the entire \$101,000 purse and selection of a referce.
