COLLIDED WITH BERG

St. Johns, Nfid., July 29.—The British steamer Manchester Inventor put into port today badly damaged as a result of colliding during a dense fog July 24 with a submerged iceberg. The steamer is bound from Montreal to Manchester, England. The iceberg was encountered fifteen miles north of Belle Isle Straits. The steamer's fore compartments were nieveed and her frame was The steamer's fore compartments were pierced and her frame was racked by the blow. It was necessary to jettison the deckload of lumber before the vessel could proceed. When she arrived here her fore compartments were full of water, and she was nearly two feet down by the head. She will go into drydock here for repairs.

If this is so, then, will be undertaken by the city into the police department that will rival the the Provincial power extends only to directory regulation of formalities by which the contract is to be authenti-cated, and does not extend to any question of validity. This was the view contended for by one set of counsel, while other counsel contended that the power conferred by Section 92 to deal with the solemnization of marriage within a province had cut own the effects of the words in Section 91 and effected a distribution of owers under which the Legislature of he provinces had executive capacity to determine by whom the marriage ceremony might be performed and to nake officiating of the proper person a condition of the validity of the mar-

The second question consequently becomes not only unimportant but superfluous. Notwithstanding the able argument addiressed to them, their lordships have arrived at the conclusion that the jurisdiction of the Dominion Parlia-ment does not on the true construction of Sections 91 and 92 cover the whole field of validity. They consider that the provision of Section 92 conferring on Provincial Legislatures the executive power to make laws re-lating to the solemnization of marriage in a province operates by way of exception to powers conferred as re gards marriage by Section 91 and en-ables Provincial Legislatures to enact

conditions as to solemnization which may affect the validity of contract. There have doubtless been periods as there have been and are countries where the validity of marriage depends on bare contract of parties without reference to any solemnity, but there are at least as many inwhere the contrary doctrine has prevailed. COULD NOT CUT OFF CHATHAM LICENSE

Chatham, July 30. — The tavern license of the Park Hotel will not be cancelled this year, though action to have it cancelled was recently taken by

the West Kent license board. The power of district license boards is limited to a certain extent, and it seems that they cannot abruptly cut off a hotel license on the grounds of complaints alone. There must be ac-

tual convictions. In the case of the Park House there were numerous complaints, and the hotel management were several times charged with violations of the liquor but in each case there license law, was not sufficient evidence to bring about a conviction.

The action of the license board in the matter of cutting off the license is therefore void. Once a license board has granted a license for the year, they cannot cut it off at any time without actual proofs of offences in the shape of convictions. Complaints and rumors are not sufficient in the matter of cutting off a

A QUESTION OF RELIGION

Will Assist Catholic Missions, Others Being Barred by Peru - Punishing Directors.

London, July 30.— Several questions relating to the outrages on Indians in the Putumayo rubber district of the Amazon were addressed to the Under Secretary for Formans

recently.

Mr. King (L., North Somerset), asked whether a Roman Catholic mission to Peru would receive help, advice, and encouragement from the foreign office and the British representatives abroad, but not a Protestant mission.

Mr. Acland said the foreign office well, especially oats and barley.

Mr. Acland said the foreign office was not directly concerned with the dispatch of religious missions to the Putumayo, though it would, of course, give such assistance as might be possible or advisable. Missions of other denominations than Roman Catholics would not, he was informed, be accorded the necessary facilities by the corded the necessary facilities by the Peruvian authorities.

NO TIPPING IN ALPS

Extra Charges Will Be Made or Tourists' Bills Instead.

Geneva, July 30. - Joy undoubtedly will come to the hearts of thousands of American tourists who visit Switzerland every year, as the result of the annnouncement that a number of Swiss hotels are going to do away with the tipping evil.

Wherever the tourist goes throughout Europe he must leave a trail of Union, Ont. silver behind him, and in Switzerland the demands of valets, porters, and others are particularly exacting. So much so, in fact, that if a tourist should tip sparingly or net at all his bags and trunks are so marked that when he arrives in the next resort town he is labelled as stingy and mean. This means, of course, poor service. The methods of "highway robbery" in practice at the Swiss hotels have been a source of numerous complaints to hotel managers, and it was realized that something must be done about the matter. The remedy proposed is this: A spe

cific sum under the head of "special services" will be charged on the tourist's bill for polishing shoes, handling baggage and other such services. Although it is not announced which hotels will take up the new scheme, it is certain to become general.
