NEWS OF THE PROVINCE.

vided by the Shawnigan will. It will be through in a few days and then work will be pushed ahead under the management of Mr. J. Diok.

A special meeting of the Miners and Mine Laborers Association is to be held shortly, to discuss the mine examination and the wages paid for that work.

Manager Stickles, of the Electric Light Works, has just received a large consignment of the Thompson recording Watt meters, which are to be installed in all houses where electric light is in use. These meters, for which a small monthly charge will be made, are expected to prove a source of economy both to the consumers and the light works.

Owings to the same work will be made, are expected to prove a source of economy both to the consumers and the day made the definition of the fillings to the same will be affinence with the fillings of the same works.
