ARRESTED FOR CORSPIRACY.

Deep-laid Piet to Cause the Beath of a Young Woman.

Boston, May 4.—Last evening Chief Inspector Hancom and Inspectors Gerraughty. Houghton and Collins arrested Luke W. Holman, a real estate broker of Washingtonstreet, on the charge of compiracy to cause the murder of Miss Emeline B. Holman of Worcester. In December Holman's father died leaving property valued at \$25,000. Miss Holman, who is a half-sister to Luke, was appointed executrix and Mr. Holman was to be allowed the use of \$7000. Miss Emeline was keeping company with a gentleman and Mr. Holman thought the two would be married and that the property would be squandered. To present this Holman conceived the the dies of either murdering his sister himself or gatting some one to do so. Holman has two residences, one at the Aldine House on Court-street, this city and one at No. I Golden-street, worcester.

He could not nerve himself to do the deed and came to Boston in search of some one who would carry out his plans. He found a man who agreed to get another party to do the killing. The man gave the matter away to Chief Inspector Hancem. It was arranged that Holman should visit the party who was to do the job on Boston common on May I. Holman was promptly on hand and as own in suspect anything. He said he wanted to have Miss Enseline put out of the way. He told the supposed ruffian where she lived, gave him a key to her room, handed him her picture, told on which side of the bed she generally lay—she having a lady room-mats—and also gave him a plan of the room. He also suggested that as there were three gold watches in the room he had better take them so that robbery would be ascribed as the motive, and he also suggested as a neasy way to kill the woman that a darning-needle be run through her heart.

The murderer was to receive \$1000. Inspector Collins agreed to the job and a second meeting was arranged for last evening. Holman was again on hand, and in company with Collins was Iraspector Houghton, who was to act the part of a secon

### NORTH TORONTO

About a year ago I commenced dealing in NORTH TO-RONTO PROPERTY, as I was convinced it afforded a safe place for investment, although up to that period very little improvements had been made in that part of the city. Since that time I have sold in that locality upwards of SUMMERHILL AVE THREE THOUSAND FRET of land, and about one hundred houses have been erected or are in course of erection. Most of these houses have been occupied before completion and a large number of them have been sold, some of them reselling at increased prices, thereby proving it to be a good place for builders and investors. 81.9<sub>4</sub> 10 11

Nothwithstanding the activity in building operations during the past season, the demand for houses is greatly in excess of the supply.

With the erection of New Parliament Buildings and Victoria University in the Queen's Park, and Upper Canada College north of the city, this locality is sure to become more popular for residential purposes.

The Lots shown on this plan are most conveniently situated, being close to Yonge-st. with its many advantages and within a few minutes walk of the Street Railway and the North Toronto Station of the Canadian Pacific Railway, thereby affording rapid transit to the city and all parts of the Province. They are also in close proxinity to our beautiful City Reservoir and the proposed Park Drives in Rosedale.
