CHICAGO MARKETS.

CHICAGO, March 23.—This was an exciting day on the Board of Trade during most of the session. It was a bull campaign in all parts of the floor. The excitement carried prices up in nervous jumps, and there were times when it was impossible to buy anything on the speculative list without bidding up and up as an inducement to holders to part with their possessions. e in Toronto elevators with comdo not sufficiently take into account the wide process of readjustment that must follow such disturbances of credit, values and investment.
Such repairs of the delicately constructed

turbances of credit, values and investment. Such repairs of the delicately constructed machinery of finance necessarily require time. Some of the damages do not admit of permanent repair; some of the repairs are not to be depended upon, and the men with clear heads and deep purses prefer to wait until the recovery has been subjected to sufficient test of time. An easy condition of the money market is reasonably certain for the next four or five months, and although the current and impending exports of gold will reduce the bank reserves by a few millions, compensation will come from the unusually large disbursements of the Government and the new issues of silver notes, while the transfer of our gold to London is likely to strengthen that market and increase the foreign demand for American stocks. The railroad situation aiso is improving, and perhaps more so than is at present accredited to it.
