

## MIXED FARMING LANDS IN SOUTH SASKATCHEWAN

Kelliher, Sask., July 7th, 1914.

I beg to advise all subscribers of that valuable little paper called the *Watford Guide-Advocate*, that I have sold within the last two months 3041 acres of mixed farming prairie lands located south of Kelliher, Saskatchewan, along the new survey of the C. N. Rly., which is now building between Wroxton and Craven, and about eight miles south of the main line of the G. T. P. Rly., one of the best equipped railways in America. I note that I have still on my selling list about twenty-one thousand (21,000) acres for sale ranging from \$12.00 to \$25.00 per acre on very easy terms. Gentlemen, I do not invite you out here to see all level open prairie lands just for steam plow only, but this is a genuine mixed farming district. The land is slightly rolling but not at all hilly, with plenty of good water for stock raising, though there is a lot of grain raised here, there being over four hundred thousand bushels shipped out of Kelliher last season, and over one hundred car loads of hogs and cattle. These are facts, as I can prove it by the G. T. P. agent here. The soil in this district is a deep black loam from 10 to 14 inches, with a clay subsoil. I have the exclusive agency for twenty-four sections, also the agency for nine sections, all south, and south-east and south-west of Kelliher. For full particulars write to

**J. J. WILLIAMS,**

Toronto. Toronto, July 21.—So long as the present light runs of cattle continue the market is likely to hold steady to firm for choicest, butcher cattle. Anything of fair to choice quality sold to-day's leader at yesterday's prices, several good loads going around \$8.50 to \$8.60. For the poorer qualities the market is inclined to drag. In view of the news from Buffalo that more cattle would be coming in at present prices, Toronto is higher than Buffalo. Choice cows are steady at yesterday's advance. Lambs steady at yesterday's decline. Calves steady and milch cows firmer; light steady and heavy are not wanted.

Hogs are firm and 5c higher.
