## REPLENISH YOUR BLOOD IN THE SPRING

Just now you are feeling "out of sorts"—not your usual self. Quite exhausted at times and cannot devote real energy to your work. Sleep does not rest you and you wake up feeling "all tired out." Perhaps rheumatism is flying through your muscles and joints, or may be your skin is disfigured by rashes, boils or pimples. Headaches, twinges or neuralgia, fits of nervousness, irritability of temper and a disordered stomach often increase your discomfort in the spring.

The cause—winter has left its mark on you. These troubles are signs that your blood is poor and watery, that your nerves are exhausted. You must renew and enrich your blood at once and restore tone to your tired nerves, or there may be a complete breakdown. The most powerful remedy for these spring ailments in men, women and children is Dr. Williams' Pink Pills for Pale People, because these Pills cleanse bad blood and strengthen weak nerves. New, rich, red blood—your greatest need in spring—is plentifully created by Dr. Williams' Pink Pills, and with this new, pure blood in your veins you quickly regain health and increase your strength. Then your skin becomes clear, your eyes bright, your nerves strong, and you feel better, eat better, sleep better, and are able to do your work.

Begin your spring tonic treatment to-day for the blood and nerves with Dr. Williams' Pink Pills—the Pills that strengthen. These Pills are sold by most dealers, but do not be persuaded to take "something just the same." If you can't get the genuine Pills from your dealer they will be sent you by mail, post paid, at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville Ont.

### A Crying Need For More Food

It is estimated that forty million men are bearing arms in the present titanic struggle, while twenty million men and women are producing munitions and clothing for soldiers. Many of these sixty millions were formerly producers of food. From that work they are withdrawn, leaving vast regions idle. Ten nations are on rations, and six in distressing lack of food.

Canada is one of the countries that are expected to produce a surplus of food to help to make up the deficit in lands that are more severely affected. It is our duty to feed our soldiers and our allies. Our country is exceptionally well situated, for a vessel can make four trips from Canada to England in the time occupied by one trip from Australia.

Our present production falls far short of what ought to be done. The acreage of wheat, oats, barley, and potatoes was nearly 365,000 less in 1916 than in 1915, and the yield declined by more than 73 million bushels. Between 1914 and 1916 the yield of potatoes fell from 26,717,567 bushels to 7,408,429 bushels.

The Ontario Department of Agriculture is proud of the many patriotic acts of the Ontario farmers and realizes to the full the difficulties the farmer is working under. Through the Ontario Government Public Employment Bureaux a determined effort is being made to secure a large amount of farm-trained labor and it is hoped that the farmer will make full use of same and produce large crops this season, for every pound of which large prices are likely to be paid.
