

Choose Your Fall Overcoat or Suit Now

We offer you clothes that are distinctly different and smarter. Every garment has character and individuality that lifts it out of the ordinary class. There never was a better time than right now to test the truthfulness of the claim that we persist in making—that our range of Men's Clothing has no equal in fitting, style and wearing qualities. We are surer of it this season than ever.

We are showing over 300 patterns in the finest imported all-wool suitings. A Suit or Overcoat made to your individual measure and ready for you in ten days. Made, too, with that style, fit and shape-keeping qualities as only the celebrated 20th Century hand tailors can make them. Leave your order now while the range is large and complete.

EYEBROW IS HIS SPECIALTY

New York "Beauty Doctor" Makes Good Living Ministering to the Vanity of Women.

The American woman, according to a New York doctor, is the loveliest woman in the world, and he is beginning a "drive" to keep her so. He rails against the habits and customs of New York women, and declares they are ruining their intellects and their health by trying to keep young and beautiful the wrong way.

Flesh is a menace to longevity, and the woman over thirty should be careful of her diet, and take plenty of exercise. She should eat very little meat, plenty of fresh vegetables and fruit, and she should never smoke a cigarette!

The man of the hour in New York is the eyebrow specialist, who can change a woman from a beetle-browed beauty to a beauty with eyebrows that are just a slender curved line. That man does nothing but alter the shape of women's eyebrows, and he makes a good living at it.

He has long, delicate, white fingers and a little pair of silver tweezers. With these he tweaks out hair after hair until only a little group where the brow starts are left. Then he puts on some healing cream to ease the irritation of the tweaking, and finally, when you and your brows have recovered, he takes a slender camel's-hair brush and paints a narrow curved line where your hairs once were.

The Wrong Man.

"These two crestfallen footpads were brought to the police station by the man they sandbagged."

"Well, if they ever hit him once I don't see how he kept from toppling over."

"Easily enough. The person they struck was Prof. Finetti, circus star, who bounced down a flight of steps on his head."—Birmingham-Age-Herald.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time, and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if the trouble comes suddenly—as it generally does—the Tablets will bring baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
