

ers, Messrs. Stone, Miller, &c., with cuts of some of their characteristic animals. The work is exceedingly well printed, and illustrated on good paper, and the "getting up" is highly creditable to the establishment of Mr. D. D. Moore, of the *Rural New Yorker*. As sheep husbandry is daily acquiring more importance in Canada, we can safely recommend to our farmers "THE PRACTICAL SHEPHERD," as the most comprehensive and valuable treatise on this subject that has as yet emanated from the American press.

is not stated, but we presume it is about a dollar. Every farmer having a flock of sheep, of whatever breed and however small, would do well to procure a copy. Mr. Fleming, Seedsman, Toronto, has a few copies of this work on hand.

BLACKWOOD'S Edinburgh Magazine; October 1863; New York: Leonard, Scott & Co.

This old serial the longer it lives seems to increase in the vivacity and attractiveness of its articles. The present number contains the conclusion of *Cantoniana*; *Sheridan Knowles*; *To-day in Italy*; *Harron School*; *Chronicles of Carlingford*; *Amen!*—in the *Cathedral of St. Andrews*; *Gold and Social Politics*.

Coe's Super-Phosphate of Lime FOR WHEAT.

THE following testimony is from an extensive Wheat-grower, and the best of authority:

{ Near Frederick, Frederick Co., Md.,
January 2, 1863.

DEAR SIR,—I have used Coe's Super-phosphate of Lime for several years past with uniform success, and last season it proved particularly satisfactory. Ten acres of land which was of more than an ordinary poor quality was treated in the following manner:—On one half the piece I used Coe's Super-phosphate, at the rate of 200 lbs. to the acre; on the other half Peruvian Guano at the same rate, and sowed with wheat. On the five acres on which I used Phosphate, I had at least twent-five per cent. more wheat, and the berry was much larger and of nicer quality than where the Guano was used, and also the straw was much the heaviest where the Phosphate was used. I have used Coe's Phosphate in different ways, and on different crops, and the results have been highly satisfactory.

Very truly yours,
JOHN H. DETRICK.

THOROUGH-BRED SHORT HORN FOR SALE.

MORETON DUKE, got by Mr. Stone's Bull 3rd Grand Duke, 229 $\frac{1}{2}$, calved 9th June, 1860.

William of Oxford, got by Mr. Stone's Bull 12th Duke of Oxford, calved 19th November 1859.
