Reach The Principal Contractors Through The CANADIAN ENGINEER

Municipal Contracts should be let at the lowest possible figure. You cannot secure low bids unless you place your proposition before a large number of contractors. The larger the number, the greater the competition and consequent saving. More contractors look for proposed work in

THE CANADIAN ENGINEER

than in any other engineering publication in Canada

To The "OGDNA" BOILER COMP. COMPANY.

Gentlemen, -After two six weeks' tests on our boiler, we find the above Compo is giving us satisfaction, and doing all you guaranteed it would do under the conditions—no cure, no pay; and we think by the end of the present six weeks now running our boiler will be perfectly clean. We have pleasure in recommending it to users who are troubled with scale.
