The Markets.

Barley

THE market shows slightly easier this week. Complaints are made that the Canadian product is not well cleaned and this has a depressing effect on the American market. Prices however remain as before

The local market reports some inquiry for export, but very little movement reported and the market casier. There was quoted 44c for No. 1 cast, straight No. 2 41c, and a lower grade 39c. The farmers' market quoted 41c, to 44½c.

Montreal reports malting at 50 gc. to 52c., and feed 45c. to 46c.

The visible supply is: Toronto 67,228 bush., as against 61,659 tush, last year, Montreal 2,443 bush as against 49,786 bush last year, and for the continent 3,509,000 bush as against 2,301,000 last

3,509,0000 bush, as against 2,301,000 bast year.

Messra, Downey, Irwin & Co., Oswego, write.—New Canadian barley is commencing to arrive here more freely, but it is not receiving the attention and favor from malisters that it otherwise would, on account of the cargoes being so filled with country of the cargoes being so filled with least and seeds. The quality of the wastern barley this year is unusually fine and is arriving here theroughly cleaned and free from all foreign grains, all foul mixtures of seeds, etc. We, therefore, urge upon you the necessity of seeing to it that the Canadian grain is cleaned and prepared properly for the market. The advantages of this will be apparent to you. H grain comes from Canada properly cleaned a better price is obtained for the properly for the market. The distribution of the price is obtained to will pess and seeds it not only live the selection of the properly for the

New York, 2c.

Oswego telegraphic report is:—Barley
market steady; Camada quoted at 61½c.
western a shade lower; 10,000 hush
western sold at 50½c. Stock in store
275,000 hush. Shipments for the weel
