There was a small but meritorious collection of Bantams. A beautiful pair of silverlaced Bantams, exhibited by Rev. W. F. Clarke, obtained a first prize. Mr. Millington. Col. Hassard, and Mr. Peters also exhibited very fine pairs of the same kind. In the feather-legged variety we think a mistake was made, owing probably to the imperfect light at the time of awarding the prize. Mr. Williams, of Toronto, was, in our opinion, entitled to a first prize in this class.

Of Turkeys there was not a large, but still a very good display. That which obtained the first prize, exhibited by Mr. Burr H. Nichols, of Lockport, N.Y., was truly a splendid bird, and weighed over 40 lbs. Mr Johnson and Mr. Feeley exhibited each a finespecimen of the wild turkey.

The display of ducks was remarkably good, and special mention should be made of two pairs exhibited by Mr. Stone, of Guelph, which, though only seven months old, were remarkably large and splendid birds. Excellent Aylesburys were also shown by Mr. Peters, of London, and Rev. W. F. Clarke, of Guelph. There were besides Aylesburys some fine specimens of Rouen, Muscovy, and other varieties in this class.

Among the Geese there were some fine large creatures. These were all exhibited under one class -no distinction being made between Toulouse, Bremen, or other varieties; hence, no doubt, would arise some difficulty in making the awards, and we would suggest that in future exhibitions a distinction be made, as in the case of Ducks.

## PICEONS.

The show of Pigeons was without question the best that has ever been exhibited in the Province, and contained some very beautiful specimens. Among these, Col. Hassard's Carriers and Pouters deserve special mention. The award to him of only the 2nd prize for the latter variety must, we think, have been inadvertently made, since we do not know in what point they are at all defective or inferior. Other classes of these beautiful and interesting birds were very fairly represented. Mr. J.A. Johnson, of London, especially, showed some very beautiful specimens. His Turbits were particularly deserving of admiration, as were also the Jacobins, and a variety named "Mottled Drummers," which ought rather to have been entered as Trumpeters.

Great credit is due to the judges, Messrs. Finchand Martin, of Toronto, and Van Ingen, of Woodstock, for the manner in which they discharged their difficult task. The awards were, in the majority of cases; such as all disinterested connoisseurs would indorse.

In noticing a collection distinguished by so large a number of really splendid specimens, some names that deserve honourable mention may inadvertently be omitted, though the prize list given below will probably supply the deficiency. Special praise is due to the contributors from London, Messrs. Peters, Bogue, and Johnson, who have done much toward making up the fine collection of fowls which have been displayed in this city at the recent exhibition, and have shown, as on former occasions, that their young city at the west is not a whit behind her older sister in the possession of choice poultry. It has been one marked feature in this Exhibition, that not a single prize was withheld on account of the inferior quality of the specimens shown. This, of itself, speaks | F volumes as to the excellence of the stock exhibited. We hope that, as in the present instance, every exhibition held by the 'Association may be an improvement on its predecessor. We append below the

## PRIZE LIST.

## POULTRY.
