Petrolia and Chatham

wagons have been the choice of thousands of Canadian farmers for many years. They are made especially for the service the Canadian farmer requires.

The wood entering into the construction of Petrolia Wagons is selected with great care and thoroughly seasoned. The iron work is designed to insure durability and strength.

The paint and varnish with which they are handsomely finished covers no defects in material and workmanship.

Chatham Wagons have a long record for satisfactory service. Made with hard maple axles, white oak bolsters, sand boards, rim, spokes and oak or birch hubs, second growth white ash trees and yokes—all this material being dried under cover and carefully inspected before being used—they represent the highest possible standard of wagon construction.

Call on your local IHC dealer and see the various styles in which these wagons are made. You will find one among them that will meet your exact need. Or, if you prefer write direct to nearest branch house for booklets and full information.
