SOLICITED, Mining and Mill Work.

Notice is given of application for letters patents to incorporate the James Cooper Manufacturing Company, of Montreal, capital \$200,000, for manufacturing or dealing in mining machinery, etc.

News has reached here that the Kansas City Smelting Company has bonded the Arlington mine, located about four miles east of Roseland. Assays have reached as high as \$140 per ton. The Company bonded it for \$50,000.

Warren D. Mason, President of the Chicago Acetylene Gas and Carbide Company, was killed at his residence by a folding bed. Mr. Mason arose to see what time it was and in getting back in the bed, it fell on him, breaking his back.

In a letter received by Wiley, Brush & Co., the Gorman Commission Co., say with reference to the full pack of Columbia River salmon: "Some of the packers send in a memorandum to the effect that they cannot possibly fill some of the orders that have been submitted to them, and that if they do succeed in filling those orders which they have accepted it will only be by the skin of their teeth."

The application for the charter for the Algoma Coal Co., Limited, was made last week. The board is an exceptionally strong one, combining experience in coal mining, capital and scientific knowledge. The applicants for the charter are:—Messrs. William Wilson, Toronto; Andrew Robertson Gordon, Toronto; James Todhunter, Toronto; Alexander Young Scott, Toronto; John Hally, Toronto; D. Gilbert Gordon, Toronto; Edward Buckingham Shuttleworth, Toronto, and Samuel Crane, Toronto. The following are the first directors:—Mr. Samuel Crane, Dr. Gordon, Mr. William Wilson, Prof. Shuttleworth,

and Mr. John Hally. Mr. Samuel Crane is a retired coal merchant, and has had years of experience in coal mining and prospecting in the great coal fields of the United States. The other associated in the company are men of means and scientific attainments.

A private letter received by a friend of the Hon. Clark Wallace states that Mr. Wallace has invested \$300,000 in a silver mine at Ainsworth, in the Kootenay district, and will shortly float a company for its development.

Farmers who have observed and kept good record of the seasons for nearly fifty years says the Bedford Times, predict an open winter. A farmer said the other day that he has seen several flocks of wild geese going north, which fact, he claims, has never failed to point to an open winter.

Cables received quoted new crop Persian Hallowe dates to arrive in Southampton at 19s 3d; stock to arrive here on or about November 21. For shipment via London the cable quoted 18s 9d for first arrival there, which should be due in New York about the 23rd inst. It is reported that packing has been stopped and that an effort is being made in London to corner the market.

Judgment has been granted by the Master-in-Ordinary in favor of various creditors of the Ontario Express Company finding a former liquidator, Mr. Stephens, liable for \$1,700 of assets not accounted for by Mr. Stephens or not delivered by him to the present liquidator. The company failed in April, 1892, since which date litigation has been pending before Judge Hodgins, the Master-in-Ordinary. This is the first case in which the Master found the liquidator liable for negligence.

California loose muscatel raisins are firm in all positions. Spot stocks are rather light and the offerings from the Coast are not liberal. Recently sales of several cars were made on the basis of 3½c for two crowns, 4½c for three crowns and 5½ to 5¾c for four crowns, as to seller. London layers are quoted on the Coast at \$1.20 f.o.b. Old goods on the spot are procurable at \$1.15 though the offerings at that price are limited. New layers are quoted on the spot at \$1.35 to 1.40. Clusters are quiet and somewhat nominal. Valencia layers are firmly held at 6½ to 7c. Sultanias are quiet and prices are somewhat nominal. Recent arrivals have brought the spot stock up to about the same quantity as was available at this time last year. Currants are quiet and unchanged, barrels being quoted at 4c and cases at 4½c. Buyers show little interest at the moment. There is nothing new to report in the market for prunes. There is considerable inquiry for the larger sizes, but as these are very scarce little business results. The market on all sizes is firm, but unchanged. Apricots are selling to a moderate extent. Fancy grades are unobtainable and the demand runs chiefly to them. Peaches are quiet but steady. Figs are in moderate request, but as there is a scarcity of good grades in either cases or bags the market is firm. Dates are firm. Fards are in limited supply and the small lots selling bring full previous prices. Persians are in small stock on the spot, but buyers seem to be holding off awaiting the arrivals of new crop. Citron and peel are steady under a moderate jobbing demand. There have been no new developments in the market for nuts. The demand at present is rather light, but a firm feeling prevails and holders show no inclination to shade prices.
