

life is spared. This testimony is voluntary, and I give it hoping that hundreds of my sex may try the remedies and receive the same marvellous good that I have. They are good to take, and unlike any medicine I ever took before, leave no bad effects.

MRS. J. FAWCETT,  
102 John St., Toronto.

This certifies that I have been suffering from kidney complaint and gravel accompanied with severe pain in the back and abdomen and constipation of the bowels. Medicine I took did me so little good that my trouble was soon as bad or worse than ever. I consulted Dr. Rear three weeks ago, and he prescribed Histogenetic Medicines for me. I am getting well very fast, my pain is nearly all gone, and I am getting strong, and hope very soon to be as well as ever. As the medicines build up very rapidly, I have more faith in Histogenetic Medicine than any other, they are good to take and leave no bad effects.

C. H. Wood,  
122 Jarvis St., Toronto.

GENTLEMEN.—I now wish to bear my testimony to the magic powers of Histogenetic Medicines in the cure of lung diseases. Three years ago I had a severe attack of intermittent fever, which shook my constitution very seriously, especially my lungs, liver and bronchial tubes. A year ago I took la grippe, which left me in a bad condition. I had a very bad cough and profuse expectoration. Could not sleep for coughing and pain in my lungs. I had night sweats and other evidences of a destructive process going on in my system. All I took and did, including cod liver oil and other consumptive remedies, did me no permanent good. I finally became discouraged, and realized that consumption would soon carry me off unless some unusual treatment was brought into use in my case. I got worse, and still worse, until about the middle of December last, when I noticed an advertisement in the Toronto papers giving the testimonials of a man named Hopcroft having been cured of consumption, also the testimony of another Toronto citizen named Sinclair, cured of bronchitis with Histogenetic Medicines. I consulted Dr. Rear, the medical examiner of the Association. He was positive after a careful examination of my condition that Histogenetic Medicines perseveringly taken, would effect at least an arrest of the disease, and very probably a radical cure. I commenced treatment at once and began to gain rapidly, when unfortunately I took a severe cold, but persevered with the treatment, and was soon better than usual again. I have rapidly improved until my cough, expectoration, pain and night sweats are entirely gone. I have gained more since commencing the treatment than I had lost during my illness (fifteen pounds.) In fact, I weigh five pounds more than I have for years. I am able now to follow my usual employment all day and feel splendid. The action of these beautifully prepared, tasteless medicines is miraculous and permanent, and they leave no injurious effects. I wish in this testimony to tender my hearty thanks and also those of my now happy wife to the Histogenetic Association for the deep interest they took in my case, which has resulted, through God, in my life being saved when all else failed. I shall gladly answer any enquiries concerning the facts in my case.

Yours truly,

THOS. WILLIAMS,  
Feb'y. 2, 1891. 100 Robert St., Toronto.
