

SYP. HYPOPHOS. CO., FELLOWS

CONTAINS

The Essential Elements of the Animal Organization—
Potash and Lime ;

The Oxidizing Elements—Iron and Manganese ;

The Tonics—Quinine and Strychnine ;

And the Vitalizing Constituent—Phosphorus ; the whole
combined in the form of a Syrup, with a slight
alkaline reaction.

It differs in its effects from all Analogous Preparations :
and it possesses the important properties of being
pleasant to the taste, easily borne by the stomach,
and harmless under prolonged use.

It has gained a Wide Reputation, particularly in the
treatment of Pulmonary Tuberculosis, Chronic Bron-
chitis, and other affections of the respiratory organs.
It has also been employed with much success in
various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant,
tonic and nutritive properties, by means of which the
energy of the system is recruited.

Its Action is Prompt : It stimulates the appetite and the
digestion ; it promotes assimilation, and it enters
directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy
and removes depression and melancholy ; *hence the pre-
paration is of great value in the treatment of nervous and
mental affections.* From the fact, also, that it exerts a double
tonic influence, and induces a healthy flow of secretions,
its use is indicated in a wide range of diseases.

When prescribing the Syrup please write, "Syr.
Hypophos. FELLOWS" As a further precaution it is
advisable to order in original bottles.

FOR SALE BY ALL DRUGGISTS.
