

# ‘OVALTINE’

## AND PHOSPHORUS ADMINISTRATION

IT IS GENERALLY AGREED THAT THE MOST SATISFACTORY MEANS OF EXHIBITING PHOSPHORUS IS BY NATURAL FOODS RICH IN PHOSPHATIDES.

“Ovaltine,” the Tonic Food Beverage, is made from ripe barley malt, creamy milk and fresh eggs—all rich in assimilable organic phosphorus bodies—by a special process of extraction and concentration which presents these principles in undiminished activity and in a form which ensures prompt and complete absorption.

“Ovaltine” is a great help in those cases where it is essential to arrest tissue waste and to counter-balance excessive loss of phosphorus such as certain neurasthenic and general debilitated conditions, pulmonary tuberculosis, etc. “Ovaltine” is characterised by being of definite therapeutic value, by being convenient and palatable, and by being reasonable in price.

SUPPLIED BY ALL DRUGGISTS. SPECIALLY LOW PRICES ARE QUOTED TO HOSPITALS AND KINDRED INSTITUTIONS ON DIRECT APPLICATION TO TORONTO OFFICE.
