

Soft, rich color effects are produced on shingles by the use of Shingletint.

There are many brands of Shingle Stains in the market, but only one *Shingletint*, which means much to the consumer, who may call for it by name and know he is getting the best Shingle Stain made.

Shingletint is a scientific combination of linseed oil, coloring matter, creosote and the necessary drying agents; its use not only beautifies but prolongs the life of the shingles.

Finished woods and descriptive literature sent free upon application.
