

ANNEX A

Description	Control Unit	Quantitative Limit
For January 1, 1980 to December 31, 1980		
Polyester filament fabrics, excluding tie fabrics and woven tire cord fabrics	Square yards	21,328,858 (1) (2) (3)
Nylon fabrics, excluding woven tire cord fabrics, fabrics for belt manufacturing, fabrics for umbrella covering and rib- bon cloth	Square yards	6,616,283 (3)
Acrylic spun yarn for hand knitting	Pounds	1,707,872 (3)

- Note:** (1) Shipments under this quantitative limit may be increased by an amount not to exceed seven per cent of the quantitative limit of nylon fabrics in the calendar year 1980 provided that there is a corresponding square yard shortfall in export of nylon fabrics.
- (2) 954,000 square yards of filament polyester sheer fabric (such as voile, batiste, chiffon) and pongee fabrics may be exported to Canada in addition to this quantitative limit in the calendar year 1980. Within this total, either of the two items shall not exceed the level of 636,000 square yards.
- (3) These quantitative limits, excluding the additional quantities provided in (2) above, may be exceeded within a limit of five percent of a quantitative limit for the same textile in the preceding year, by carryover of portions of the latter quantitative limit which were not used for that textile.
