

APPENDIX B.

WHERE THE FRONTIER COLLEGE WORKS.

A CROSS-SECTION OF AN AVERAGE PULP CAMP IN NORTHERN CANADA

The following table shows the make-up of an ordinary pulp camp—the various races, the coming and going, and yet the considerable proportion who are not only glad to use a reading room, but also the number who become actual pupils in night classes. In my opinion the university should stand for Canadianism of best type in such places. The university owes something to these men, as well as to those in the class room. An instructor in each such camp is one solution.

*The money saved is only a judgment and "Some" means in most cases very little.

NAME	Nationality	Languages		Approx. Age	Length of time in Camp	Still in Camp	Used Reading Room	Saved Wages *	Progress of Pupils
		Speaks	Writes
