

## CANADA FIRST--BUY AT HOME

An article that is made in Canada and sold to a Canadian purchaser serves a double purpose. It pays a wage to the one who made it and the money is kept in circulation at home. That is a big factor. Did it ever occur to you that the broom you are using in your house, or the hundred and one different things with which you keep house, were made by somebody for a wage which he spends somewhere for his daily necessities? Did you ever stop to think that if the article you use was made outside of Canada that money was put into circulation in another place having absolutely no interest whatever in the growth of your country, but going to build up another?

Have you ever stopped to think of the immense amount of every-day goods that are annually imported to Canada? Just because you are not very keen as to whether you get the home product or not?

If you have not, it is especially fitting that you give the matter some consideration just now. It is honestly believed by those in a position to know, that this particular time in our history affords an opportunity for Canadians to build up a home market for home goods. The stimulant that would be given Canadian industries were Canadians to positively insist upon Canadian-made goods would be astonishing. The effect would be hard to estimate. The very fact that an added amount of employment would be found would be an outstanding feature.

It is surprising to know just what goods are brought into Canada from other countries. For instance, who would imagine that millions of dollars' worth of flax products are imported when the Canadian west can grow flax by the thousands of acres?

But here is the list:

Articles Imported	Germany.	Austria.	Other countries.
Flax, Hemy, Yute and Manufactures of Linen in the piece, Stair Linen, Diaper, Doylies, Tray Clothes, etc.	\$35,876		\$ 994,548
Towels	11,912		189,505
Bags and Sacks			42,801
Carpeting, Rugs, etc.; Mats of Hemp or Jute	591		281,732
Handkerchiefs			448,970
Hemp, dressed or undressed			2,092,703
Jute Canvas, uncolored			
Jute Cloth, uncolored, not otherwise finished than cropped, etc.		7,416	11,790
Jute Cloth taken from the loom, not finished			2,745,457
Jute or Hemp, dyed or colored			283,738
Linen Fabrics, bleached, unbleached, dyed or colored	4,915		586,872
Tailors' Hollands of Linen in the web			201,711
Thread Linen			239,904
Other Flax, etc.	17,091		457,150

These amounts added make a total of \$3,970,473, and that many dollars' worth of flax products were imported to Canada during the last fiscal year. Can they be made in Canada? The answer is: Can Canada grow flax? Will they be made in Canada? The answer is: Yes, if Canadians insist on Canadian-made goods. You are the buyer. Buy made-in-Canada goods.

## APPLE SITUATION LITTLE RELIEVED

Prospect of Extensive Waste—More Storing Than is Usual.

OTTAWA, Oct. 13.—The fruit division, department of agriculture, has received the following information relative to the apple market: A cable just received from Manchester, England, quotes Canadian Kings selling at 12s to 21s; Baldwins, 12s to 17s; Ben Davis, 12s to 16s; and Gravensteins 9s to 14s.

Telegrams from Canadian points: Winnipeg.—A car of Michigan Keltner pears has sold wholesale at \$4.50 per barrel.

Lake Huron counties.—No. 3 grade being shipped, and practically ninety per cent. of No. 1. Prospects are that thirty

per cent. of red varieties and seventy per cent. of green varieties will waste. All fall varieties being evaporated. Prices for f.o.b. sales are \$1.25 to \$1.50 per barrel. Prices from the west are not satisfactory. Boxes holding up in price better than barrels. More storing than in other years.

Prince Edward County.—Some growers shipping No. 3, but most shipments Nos. 1 and 2. About forty per cent. of crop sold at 50c to 60c per barrel on the tree. Few being stored.

Georgian Bay.—No change in price to growers. All standard fall and winter varieties being shipped to New Ontario, and west. Evaporators are paying 25c per cwt.

Lake Ontario (north shore).—Shipments of popular varieties are ninety per cent. of No. 1 and balance No. 2, mostly being exported. No f.o.b. sales last week.

## Limited Business Starts Thursday

There was a meeting of the Toronto Stock Exchange yesterday. It was decided that trading thru the committee in a limited number of securities at minimum prices should be permitted. The new business will commence on Thursday. It will be subject to the rules and restrictions passed by the managing committee. Buying orders must be for cash. Selling orders can only be filled by members covering securities now carried on their books, with the object of strengthening accounts not sufficiently margined. Only securities common to the Toronto and New York markets will be admitted to trading at the minimum prices prevailing in New York.

Representative Purchases. The Swift Canadian Company bought 175 cattle: Steers and heifers at \$7 to \$8; good cows at \$6 to \$6.75; medium cows at \$5.25 to \$5; canners and cutters at \$3.25 to \$4.25; bulls at \$5.50 to \$7; 110 lambs at \$7.75 to \$8; 55 sheep at \$4.75 to \$5; 30 calves at \$5.50 to \$10.50.

Wm. Cresslock bought for the Harris Abattoir Co. 165 cattle: Steers and heifers at \$7.50 to \$7.75; cows at \$6 to \$6.50; bulls at \$5 to \$5.50; canners at \$4.75 to \$5; 115 sheep at \$5.50 to \$6; culls at \$2 to \$2.50; heavy sheep at \$4 to \$4.50; 70 eastern calves at \$9.50 to \$11.

WHEAT EXPORTS ON LARGE SCALE

Reports More Than Offset Effect of Increase in Visible Supply.

CHICAGO, Oct. 13.—Liberal export sales of wheat, especially at Kansas City, acted as a motive power today for a decided increase shown by the United States visible supply. According to the latest figures, the visible supply advanced. Corn closed 1/4c up, and with a gain of a shade to 1/4c, and provisions varying from 27 1/2c decline to a rise of 12 1/2c.

In addition to round lots of wheat that were disposed of at Kansas City to European buyers, 25,000 barrels of flour were purchased there for shipment across the Atlantic. Minneapolis also reported flour sales to Europe, and there were advices of exporters buying wheat at Duluth. Bullish sentiment was given further impetus as a result of news that seeding operations abroad had made but little progress, and that the remarkable falling in receipts at Winnipeg continued, with farmers' deliveries very small in Minnesota and the Dakotas.

Wet weather breasting damage and feed shortage in Canada, however, pit traders turned to the selling side and wiped out most of the gain. Oats averaged higher, influenced by the active shipping demand. Exporters took 600,000 bushels. Lower values for hogs led to general selling of provisions. Buying orders came chiefly from shorts.

## FOREIGN EXCHANGE IS QUOTED HIGHER

Reported German Successes Clouded Financial Skies at New York.

NEW YORK, Oct. 13.—Recent successes of the German arms exercised a potent influence in financial circles today. This found special emphasis in the market for foreign exchange, which was more circumscribed, at higher rates. Cables sold up to 497 1/2 and sight drafts to 497. German marks were firmer, but exchange on Berlin and Paris was more nominal than usual.

Further reduction of the deficit of the clearing house banks as disclosed in last week's statement, brought no change in local rates for money, time loans being made at 7 per cent., with call loans at 6 to 8 per cent., according to the class of collateral. Commercial paper was in light request, but the best quality of these bills is now finding ready acceptance at 6 per cent.

Unfavorable advices continue in the steel trade, a number of independent factories reporting further reduction of output and few of them working up to even 50 per cent. of capacity. Two weeks from today the U. S. Steel Corporation will issue its report for the third quarter of the year, with concurrent action on the common dividend. For many reasons the occasion will be one of the most interesting in the history of the corporation.

More Gold Exports. Additional exports of gold to Canada, partly for account of the gold pool, were announced today. Members of the pool again received numerous applications for exchange, but some of these were rejected, according to report, on the ground that they failed to come within the scope of its operations.

The stock exchange today modified its rules for trading to the extent of permitting dealings in guaranteed listed stocks at concessive prices. This action, as an indication that the restrictions against other listed stocks might soon be removed. Private dealings in bonds and short term notes were in smaller volume.

## STANDARD EXCHANGE

Sales on the Standard Exchange yesterday comprised 2290 shares. Coniagias brought 6 1/8. Crown Reserve sold at 107. Foley-O'Brien changed hands at 20. One thousand shares of Pearl Lake sold at 2, and later 600 went at the same figure. Timekaming was at 10 1/2, and Forcupine Crown sold at 80.
