THE STORY OF DON JOHN OF AUSTRIA.

By Padre Luis Coloma, S.J., of the Real Academia Española. Translated by Lady Moreton. With Illustrations. Demy 8vo. 16s. net.

*** "A new type of book, half novel and half history," as it is very aptly called in a discourse delivered on the occasion of Padre Coloma's election to the Academia de España, the story of the heroic son of Charles V, is retold by one of Spain's greatest living writers with a vividness and chain all his _am. The childhood of Jeromin, afterwards Don John of Austria reads like _msterious romance. His meteoric career is traced through the remaining chapters of the hook; first as the attractive youth; the cynosure of all eyes that were bright and gay at the court of Philip II., which Padre Coloma maintains was less austere than is usually supposed; then as conqueror of the Moors, culminating as the "man from God" who saved Europe from the terrible peril of a Turkish dominion; triumphs in Tunns; glimpses of life in the luxury loving Italy of the day; then the sad story of the war in the Netherlands, when our hero, victim of an infamous conspiracy, is left to die of a broken heart; his can hastered by lever, and, maybe, by the "broth of Doctor Ramirez." Perhaps more fully than ever hefore is laid bare the intrigue which led to the cruel death of the secretary, Escovedo, including the dramatic interview between Philip II. and Antonio Perez, in the lumber room of the Escorial. A minute account of the celebrated auto du fe in Valladolid cannot fail to arrest attention, nor will the details of several of the imposing ceremonies of Old Spain be less welcome than those of more intimate testivities in the Madrid of the sixteenth century, or of everyday life in a Spanish castle.

THIRTEEN YEARS OF A BUSY WOMAN'S

LIFE. By Mrs. ALFC TWEEDIE. With Nineteen Illustrations. Demy 8vo. 16s. net. Third Edition.

** It is a novel idea for an author to give her reasons for taking up her pen as a journalist and writer of hooks. This Mrs. Alec I weedie has done in "Thirteen Years of a Busy Woman's Life." She tells a drainatic story of youthful happiness, hea'th, wealth, and then contrasts that life with the thirteen years of hard work that followed the loss of her husband, her father, and her income in quick succession in a tew weeks. Mrs. Alec Tweede's books of travel and biography are well-known, and have been through many editions, even to shilling copies for the bookstalls. This is hardly an autobiography, the author is too young for that, but it gives romantic, and tragic peeps into the life of a woman reared in luxury, who suddenly found herself obliged to live on a tiny income with two small children, or work—and work hard—to retain something of her old life and interests. It is a remarkable story with many personal sketches of some of the best-known men and women of the day.

THE ENGLISH AND FRENCH IN THE XVIITH CENTURY. By CHARLES BASTIDE. With Illustrations. Demy 8vo. 125. 6d. net.

"" The author of this book of essays on the intercourse between England and France in the sevenieenth century has gathered much curious and little-known information. How did the travellers proceed from London to Paris? Did the Frenchmen who came over to England learn, and did they ever venture to write English? An almost unqualified admiration for everything French then prevailed: French tailots, milliners, cooks, even fortune-tellers, as well as writers and actresses reigned supreme. How far did gallomania affect the relations between the two countries? Among the foreigners who settled in England none exercised such varied influence as the Hugenots; students of Shake-peare and Milton can no longer ignore the Hugenot friends of the two poets, historians of the Commonwealth must take into account the "Nouvelles ordinaires de Londres," the French gazette, issued on the Puritan side, by some enterprising refugee. Is it then possible to determine how deeply the refugees impressed Loglish thought? Such are the main questions to which the book affords an answer. With its numerous hitherto unpublished documents and illustrations, drawn trom contemporary sources it cannot fail to interest those to whom a most brilliant and romantic period in English history must necessarily appeal.
