enza scare has hit the O.A.C., altho there are not enough cases of it among the students to justify any panic. This morning, however, the student body held a meeting and came to the conclusion that they would not attend the lectures. The result is that over a third of the students have already/gone to their homes, while others are contemplating similar action.

Over at the MacDonald Hall there are about 15 cases of influenza, and while the work there is not going ahead, none of the students have left. A few cases have been reported in the city today, but there is nothing in the shape of a serious epidemic as The annual convention of the provincial W.C.T.U., which was to have been held here shortly, has been called off.

### EPIDEMIC LESSENING IN THE POLISH CAMP

Niagara Camp, Oct. 9 .- While the number of Polish soldiers affected with Spanish influenza has been reduced to 98 the total affected in the Canadian camp is over 200 and still ficreasing. Only three deaths have occurred in the Canadian camp so far and none since Sunday. A death in the Polish camp last night brought the total Polish fatalities from influenza up to 17. The Polish camp seems in a fair way to be relieved of the epidemic in a short time, as the discharges from the hospital are incteasingly large and the admissions

## It is a League **Brotherly**

THE concentration of thousands of men in Camp and on field was a challenge to the organization. It felt the call of the soldier boysbrothers of ours with new social and religious needs-and feeling it, made quick answer.

Men

The British Army was not mobilized more speedily than were the Christian forces of the nation for the soldiers' service.

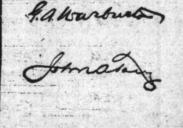

University men, clergy-men, laymen, noble wom-en with and without titles, followed the call of the Great Servant to serve in tent and hut. Similar alacrity was manifested in Australia, New Zealand, South Africa, India and Canada. The world round, wherever the ar-mies of the allies trained or fought, the Red Tri-angle was established, by the side of the Red Cross, as a sign of Brotherly Friendship. It has followed the prisoners of war into their prisons, helping to mitigate their landships. o mitigate their lo

The huts have been homes in the heat of Mesopotamia, Egypt and Africa, and in the mud of Belgium and France. The organization led whole nations to express by gifts of money, mounting into millions, the love they felt for their soldier brothers and the determined wish to help keep them cheer-ful, clean and comfortable.

When the United States entered the war President Wilson enlisted its full cooperation, and since then its spirit of Brotherliness has given it leadership in all forms of service to the soldiers of all the allied armies and navies. Its men, having learned how to organize communities and nations, have been big factors in helping all patriotic effort, interpretng and developing Brotherhood by both precept and example.
