A stray cow caused quite a diversion around ex-Councillor Doberty's residence at Eglinton on Saturday. The animal got into the grounds, and in crossing a cistern fell into it. that they have departed from the original teaching as here laid down.

History of the Sect.

The Latter Day Saints date back to 1830, when Joseph Smith founded the sect at Palmyra, N.Y. From that date till 1844, when Joseph Smith and his brother Hyrin Smith were murdered, everything went along smoothly. Then Brigham Young obtained the ascendancy, introduced polygamious practices, and with a number of followers emigrated to Utah. In 1860, however, the true church was re-established and continues to this day. The headquarters are at Lamoni, Iowa. The Utah people are not, therefore, it is contended, true Mormons, inasmuch as they have departed from this fundamental doctrine of Mormon. Missionaries from the reorganized church have gone so far as to invade Utah at the risk of their lives, interviewed Brigham Young and endeavored to proselytize the community, but with little success. No organization, says Elder Barmore, holds together more tenaciously than the Brighamites.

Services are held in the tent every even. No arrests have yet been made for Satur-day's night's assault. Mr. W. E. Ramsay, assisted by other talent, will provide the program at Mrs. Meyer's restaurant, in High Park, every Rheumatism, Which Robs Thousands
