# Croup Is The Terror of Thousands

Of Young Mothers, Because Its Approach Is So Insidious, and Its Outbreaks So Agonizing and Frequently Fatal.

Croup usually commences with a cough, more or less fever, alternate hot and co.d spells, flushed face, watery red eyes and restlessness at night. Not a moment should be lost, when the case be common cold or not; it may develop into true croup. If you live in the country or on the outskirts of a town or village, it is a very wise and necessary precaution to have a good croup remedy at hand, especially in the Fall, Winter and early Spring months,

Shiloh's Cough and Consumption Cure

acts like magic in cases of croup; it is soothing, loosening, expectorant, pleasant to take and perfectly harmless. Thousands of mothers will recognize the picture conveyed in the following extract from a letter to S. C. Wells & Co., Le Roy, N. Y., from an old lady whose grandchildren have been cured by Shilch's Cure :-

"Never shall I forget the agony I experienced that night, so many years ago, when little Tom was taken with the croup. It was mid-night and snowing. Our house

Frantic with fear, I pulled him out of the bed, and, as a last recourse, made him turn round and round; in fact, I whirled him until he grew nauseated and suddenly threw up a quantity of phlegm; his life was saved! Messrs. Heintzman & Co.:

Gentlemen,-It gives me pleasure to state that, from my own experience of the pianos made by you, I have only the most favorable opinion concerning them. In regard to the tone quality, the touch and mechanism, they would be a credit to any country, and certainly take a first position among the pianos of Canada. I have heard many other musicians speak in high terms of your instruments, and it has been noticeable the extent to which they are in demand by visiting artists of highest ability from all parts of the world. I wish you all success in the further development of everything that goes towards making a perfect piano. Yours faithfully. (Signed) F. H. Torrington.
