

RAILWAY WANTS MORE THAN CITY WILL GIVE

Consequently Council's Resolution
of Yesterday Will Not End Trou-
ble—City Protects Province.

By unanimous vote the city council yesterday approved the resolution prepared by the board of control conceding to the street railway the right to build the lines it professes a desire to construct without any prejudice to the company's legal position in any aspect it may make against the power of the Ontario Railway Board to issue such an order.

In addition, a resolution moved by Controller Spence was adopted instructing the city engineer to ascertain upon what streets the railway proposes to begin work and that the city proceed to construct the necessary foundations and "complete as speedily as possible the work to be done by the city in connection with the laying of such tracks."

The position of the company as indicated by Solicitor H. S. Coker is that it does not rest content with the assurance that its right of appeal in the present instance will not be hampered, but wants the city to pledge itself to raise the contention that the railway has recognized the board's authority.

While a section of the public, eager for the extensions, may charge that the city is using a blocking policy, the board of control takes the position that as the Whitney act was not passed for the benefit of the city or railway, but of the people of the province, it is the duty of Toronto to stand by the legislation even though suffering temporary inconvenience.

Objects to Joy-Ride.
Controller Foster objected to Property Commissioner Harris being authorized to go to Minneapolis to attend the annual convention of the International Association for the Prevention of Smokes, terming the trip "joy-riding," as the dawn of cheap electric power in Toronto would solve the smoke question. However, he voted alone against the journey.

Ald. May gave notice that he will move for the widening of St. Clair-avenue west from Yonge-street to Weston-road to a width of 88 feet as a public improvement, and that by-laws therefor be submitted to the ratepayers.

SEWER FOR SEVENTH WARD.
The court of revision yesterday confirmed the assessment to meet the cost of the trunk sewer designed to serve the needs of the southern portion of the seventh ward. The recommendation of the city engineer, the original assessment plan was altered so as to leave out property on 15 streets which he is satisfied have already sufficient sewage facilities. The levy will be at the rate of 6-1-2 cents per foot for 10 years.

The sewer will cost \$135,000. It is to run from Bloor-street, by circuitous course to Sunnyside, where it will join the main sewer.
