### SENSATIONAL DROP OF AVIATOR OVER 8000 FEET

Tho Attacked With Nausea and Hammering of Ear Drums Managed to Glide to Safety.

DEAUVILLE, France, Sept. 4.-Leon Morane, the French aviator, yesterday made a sensational monoplane flight, eclipsing his own world's record for altitude, by flying to a height of 8471 feet. The previous altitude record was 7054 feet, made by himself last Monday, at the Havre aviation

meeting.

Just when the aviator reached his highest mark, the motor of the ma-chine suddenly stopped, and the monoplane began a long and remarkable glide toward the earth. The bird-man plunged downward at a tremendous rate and reached the ground 1.24 miles

from the aerodrome. The huge crowd that had gathered on the aviation field saw Morane planing downward with frightful rapidity, and it was feared that the aviator had met with an accident. Several automobiles were despatched hurriedly to the place, where it was expected the machine would be dashed to pieces. Morane was found dazed, but not have in the seat of the wear but not hurt, in the seat of the un-damaged monoplane, holding a barom-eter in his hands. He explained that he had tried without success to start the motor, and that the velocity of the descent caused an attack of nausea and maddening hammering of the eardrums, while the violent gusts of wind threatened to capsize the craft. Nevertheless, he controlled the machine in last moment to avoid a barbed wire fence narrowly and land easily.

SHIP ON FIRE

After Battling With Flames for a Week Had to Take to Boats.

BOSTON, Sept. 4.-Sixteen survivors of the thirty-six men who composed the crew of the British steamer Westpoint, which took fire when four days out from Glasgow, to Charleston, S.C., are aboard the Leyland line steamer Devonian, which is steaming toward Boston. The other twenty men who were in the captain's boat are believed to have been lost at sea, all efforts to find their boat having been futile.

According to the story which Cap-tain Trant gleaned from the rescued men, the Westpoint left Glasgow Aug. Four days later the ship took fire, and after battling with the flames for nearly a week, the crew were obliged to abandon the vessel Aug. 29, when six hundred miles

off Cape Race. The men embarked in two boats. the captain and 19 men taking the one, and the mate and 15 others other. Not long afterwards the West-point sank. Then followed three days of terrible suffering.

#### FROM OLD WORLD ROME TO BOME OF THE NEW

Cardinal Vannutelli Lands at Montreal in the Rain and Replies to Mayor Guerin's Welcome.

MONTREAL, Sept. 3 .- (Special) .- "I accept the hospitality of your city, your province, and of the whole country, irrespective of religious belief and nationality, for in the crowd around me I see a whole people," were the words spoken to the citizens this afternoon by Cardinal Legate, the representative of the Pope, at the first Eucharistic Congress ever held on this

awaited Cardinal Vannutelli on the wharf at the foot of McGill-street was absolutely spoiled by the tremendous downpour of rain, which set in shortly after noon, and kept up without ceasafter noon, and kept up without ceasing till 6 o'clock this evening. The official world was there, however, with thhe entirety of the Canadian episcopacy, and all waited patiently for the Lady Grey, which did not appear around Long Point till almost 5 o'clock. She soon came up, however, bringing Cardinal Vannutelli, Archbishop Bruchesi, Hon. L. P. Brodeur and other officials of church and state. The civic address was to have been and other officials of church and state.

The civic address was to have been read as soon as the distinguished party arrived, but when the downpour became so intense, it was decided to drive the Legate to the city hall, and there present the Pope's representative with the city's greetings. As soon as the Legate landed, with the archbishop and, minister, loud cheers went up from the multitude, and the towering form of the Roman prelate, accompanying the mayor to the state carriage, bowed low, and smilled to those who had braved the very inclement weather to do honor to the clement weather to do honor to the church and to the cardinal, who brings with him the greetings of the father of the Roman Catholic world. He is most benevolent in expression, and his most benevolent in expression, and his purple costume gave His Eminence a very noble and benign appearance. Where 50,000 would have been at the riverside had the weather been fine, perhaps not more than 2000 braved the storm and cheered for Pope and Legate.

The Civic Address.

Arriving at the city hall, the mayor at once read the address in English and French.

Among other things, his worship said: "With joy we hall you. Welcome. Ten thousand times welcome. And while I, who am signally honored, speak these words, they are wafted from lip to lip thruout our beloved Canadian land; they are caught up and are echoed and re-echoed again thru all the wast expanse of this great continent, whereeaver a Catholic heart beats, or a Catholic knee bends before the Adorable Sacrament of our altars. "From the Rome of the old world

'Fellowship and good will and a respectful regard of each other's rights are the characteristics of our people. I, who have the honor of standing be-fore your eminence as Mayor of Montreal, am an example of the magn mous geenrosity of our French-Can-adian citizens. On account of their immense majority they hold all power in their hands, yet, altho intensely de-voted to their faith, and claiming as their ancestors the saints and martyrs who first planted the cross upon ou shores, thru a chivalrous spirit of justice, and a graciousness of soul, which is a noble trait of the national character, they chose one of Irish origin to be their representative on this great

The Cardinal's Reply. His eminence, who speaks beautiful French, replied in that tongue, beginning his address by referring to the mayor's expression that he had come from the Rome of the old world to the Rome of the new, and stated that the holy father would be only too well pleased to know that his representasections of the people in this great Canadian metropolis. The legate eloquently alluded to Montreal's industrial position, and was delighted to be able to take home the news that all of her citizens live in peace and harmony, altho they did not all belong to the same faith. He said how proud he was to see the crowds of respect-ful people who evidently respected the conscience of all, and were imbued by sentiments of great goodwill.

In fact, Cardinal Vannutelli is evidently of a very Democratic make-up, and he certainly won the hearts of all at characteristic of the Italian churchman or diplomat, making everyone at home, and evidently taking the greatest possible pleasure in meeting so creeds. In a word, a member of the sacred college has captured the town. After the handshaking was over the legate and archbishops were driven to the episcopal palace.

Preparations Cost a Million. All Montreal is on tiptoe of expectancy, for it has spent well on to a million dollars to make the congress a success. Its streets are full of arches, plaster pillars, bunting and electric decorations.

Four per cent. represents the highest rate of interest paid by banks and trust companies to their depositors. There is not a Mortgage Loan Company in Canada that is not paying at least 6 per cent. annual dividend; some are paying double that rate. As the most of these companies operate largely or entirely in Eastern Canada, where money is much cheaper than in Western Canada, and as the Pioneers' Loan Company will operate entirely in Western Canada, it is safe to predict that they will pay at least 7 per cent dividends from the start, and also be enabled to lay aside a handsome surplus.

PROVISIONAL DIRECTORS:

The following Provisional Directors are among the most successful and widely-known business and professional men of Manitoba:

HON. G. R. COLDWELL, K.C., Minister of Education of Manitoba, Brandon. A. C. FRASER, President Brandon Trust Company; President Pioneers' Fire Insurance Com-

pany, Brandon. B. D. WALLACE, Manager, Brandon. JOHN E. SMITH, Farmer, Brandon.

The Pioneers' Loan Company has been formed to meet and take advantage of the demand for loaning capital that is a necessary incident of the phenomenal development and increase of population now in prosress in Canada, and particularly in Western Canada. The idea that the Twentieth Century belongs to Canada has passed from the prophetic stage, and has already become fact. It is to the Canadian Prairies that the world's last great land "trek"

has set in.

The Provisional Directors of the Pioneers' Loan Company offer this opportunity to the small or large investor to participate in the prosperity of the great, rich and growing Northwest Canada.

The Pioneers' Loan Company is an institution that will not The Pioneers Loan Company is an institution that will not have to be fostered to make it pay dividends to its Shareholders. Business is waiting in all parts of the Great Canadian West, in the shape of First Mortgage Loans on Farm and City property. One-quarter million people are settling here annually. Thousands of these are homesteading and require financial aid, not the first year alone do these people require aid, but later, too. The Western farmer is ambitious and progressive, and as soon as he obtains the necessary machinery and stock and has it paid for, he immediately having to hulld and furnish an unstandate home. This requires begins to build and furnish an up-to-date home. This requires capital, and he is willing to pay for it. The high rate of interest charged in the West—7 to 9 per cent.—insures a handsome profit when you consider that this is earned, not only on the paid-up capital, but also on debentures, of which the Pioneers' Loan Company are authorized to issue to four times the amount of their paid-up

capital.

There is not a Loan Company operating in Canada that is not panies have loaned their funds at a much lesser rate of interest than that which is the prevailing rate in Western Canada, and which no doubt will be the standard rate for many years to come, and when we predict a 7 per cent. dividend from the start we are ing our calculations upon the successful experience of all other Loan Companies, and we are convinced that we will soon reach a 10 to 12 per cent. basis, and in addition to this lay aside a hand-

SAFE: INVESTMENT. Savings invested in the stock of a Mortgage Loan Company are as safe as those deposited in any Savings Bank. The dividend is just as certain and will be from two to four times as much and in addition to which the Shareholders will participate in the magnificent profits bound to be earned by the Pioneers' Loan Company. The Pioneers' Loan Company's charter was granted under a special act of the Parliament of Canada. The interest of the Shareholder is safeguarded by every necessary condition, and at the same time the charter grants all those privileges which are the great source of profit to the company.

ilton, Brandon. E. L. CHRISTIE, Merchant, Brandon.

PROVISIONAL DIRECTORS' OFFER OF SHARES

The charter requires that 4000 shares (\$400,000) of the stock be subscribed and \$100,000 paid in before commencing business. The Provisional Directors are offering to the public 4000 shares of the capital stock on the most favorable deferred payment plan, allowing the small investor to secure from one hundred to five thousand dollars of this stock, with the privilege of from five to ten years to make the payments. The experience of other Loan Companies justifies the prediction that in the meantime this stock should greatly increase in value. We want to explain this society to the payments. greatly increase in value. We want to explain this position to you; we want you to know of the magnificent profits which accrue to the Shareholders of well-manased Mortgage Loan Companies, and, furthermore, we want you to share in the prosperity of the great and growing west. There is not a financial institution in Canada that has ever been established under so favorable conditions as those afforded the Pioneers' Loan Company, and a future of unparalleled success is assured.

When these 4000 shares are subscribed the permanent organ-ization of the company will be effected. The permanent Board of Directors and Manager will be chosen by the subscribers of this

#### IMPORTANT FEATURES OF THE CHARTER

The Pioneers' Loan Company is authorized to sell debentures to four times the amount of the paid-up capital stock. Other loan companies are selling their debentures in Europe and the East at a rate of three to four per cent., loaning the proceeds at from 5% to 6 per cent., which enables them to pay their Shareholders from 6 per cent. to 10 per cent. dividends. As the Pioneers' Loan Company will be able to place their debentures on as favorable terms as other companies, and as by operating entirely in Western Canada they will loan the proceeds at from 7 per cent. to 9 per cent., it can readily be seen the handsome profit thereby offered to the shareholders. Another strong feature is the provisions for the operation of a general banking business, making branches necessary and profitable.
