The Cost of Bacon.

Some weeks ago and on several occasions since, The World called attention to the amazing spread between the price paid by the consumer for Canadian bacon in London, England, and in Toronto.

It is not rather hard on the citizens of Toronto, where the bacon is made, to have to pay a hundred per cent. more for that bacon than do the people of England? We know that last December Toronto bacon was selling 7 cents a pound, and that at the same time the Toronto consumer was paying between 65 and 70 cents retail.

We were told in explanation that the bacon shipped to England was a brand which Canadians would not eat. In reply we suggested that the Canadian consumer be given a chance to buy this cheap bacon.

When the house meets an investigation will be demanded, but powerful interests will do their best to stifle that demand. Will The Toronto Globe and The Winnipeg Free Press back it up when the time comes, or will they again grow apathetic?

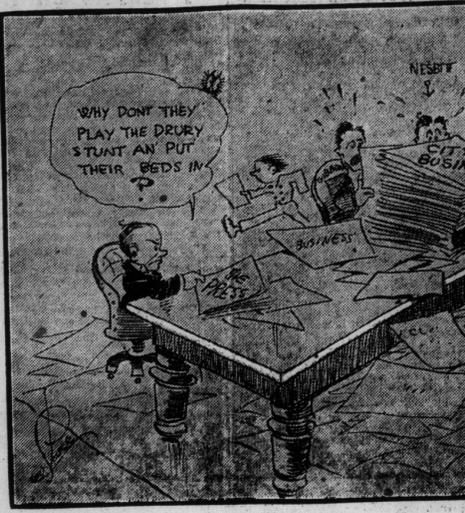

The Case of Dr. Glover.

With natural warmth, Dr. Glover replies to the report of the special committee of the Academy of Medicine finding adversely against his serum.

They are now digging for traces of Ambrose Small in Montreal. With Montreal as perhaps as good a place as any other to dig up for that purpose.

A young lady has made \$100,000 while on a honeymoon trip to Monte Carlo. If bridegrooms generally could be assured of the same result, Monte Carlo would soon eclipse Niagara Falls as a honeymoon centre.

catnip, but cats for all generations have considered it a first class remedy. True, a serum should be more demonstrable than a medicine.

What we would like to see would be a test of the Glover serum under scientific conditions. That would involve selecting cases segregating them and keeping them under observation during treatment.

What the average citizen has got to get clearly in his mind is the fact that for five years much of Canada's business was being done on borrowed money.

W. C. Prout, M.L.A., of the province of Manitoba, addressed the noon-day luncheon of the Kiwanis Club yesterday on "Rural Credits."

More Inglenook Probe. Judge Denton will have another session of the Inglenook Park farm inquiry on Tuesday afternoon.

Remarked in Passing. They are now digging for traces of Ambrose Small in Montreal.

This split in the ranks of the U.F.O. will settle at least one thing and that is who is to be boss—Drury or Morrison.

The Canadian navy has left for the Pacific coast. We may now expect to hear Hearst raving that this is preliminary to extending aid to Japan in the event of trouble with the United States.

An O.A.C. student has successfully fasted five days as a test of his will power. But wait until he marries and his wife tearfully demands that he stay home some night when he wants to go out.

BARBARA MCINTYRE made the round of the library for the fifth time, reading each of the seven doors opening into the room that they were closed behind their portieres, then she turned back to her sister, who sat cross-legged on the floor, reading "Any luck?" she asked.

Barbara answered: "The widow tried to kill me with a cyanide capsule." "For what?" the widow tried to kill me with a cyanide capsule. "For what?" the widow tried to kill me with a cyanide capsule.

CIGAR STORES CO. CANADIAN CONCERN

Red Front Concern Entirely Owned in This Country, Says President. Following the receipt of the letter reprinted elsewhere on this page, The World set out to enquire to what extent the United Cigar Stores, Limited, company is owned in the United States, as evidently the writer of the letter referred to a rumor which has been going about town for some time to the effect that the United Cigar Stores were American-owned.

OTHER PEOPLE'S OPINIONS. The World will gladly print under this head letters written by our readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

PURCHASING AT HOME. Editor World: Perhaps The Toronto World can tell its readers to what extent the exchange rate is affected by wholesale smokers buying their pipes, cigars, cigars, etc., from American-owned tobacco stores operating in Canada.

TALK ON RURAL CREDITS. W. C. Prout, M.L.A., of the province of Manitoba, addressed the noon-day luncheon of the Kiwanis Club yesterday on "Rural Credits."

GUILTY OF RECEIVING. Mrs. Lillian Kerrigan and Mrs. Doris Adamson, the two young women arrested at Streetsville while masquerading in men's clothes, were found guilty by Judge Coworth yesterday of having received furs and clothing stolen from Morris Strout, and were remanded in custody until Monday, when they will be sentenced.

RHYMING VIEWS ON DAILY NEWS

A chance to rhyme we'd hate to lose, about an item in the news, which as a joke is sure a cinch—It's on a woman who has been pinched, and who may now be sent to jail, for opening her husband's mail.
