Labor Department Tells of Rise in Cost of Living and Increase in Wages.

Ottawa, March 18.—(Can. Press) Ottawa, March 18.—(Can. Press)—
The tremendous advance in cost of living and the corresponding, the slightly less, increase in wages in Canada during the period from 1913 to 1920, is shown by a lengthy statement which will be published by the labor department as a supplement to living and partial parts of the United States.

Fewer Working Hours Weekly-An increase of 90.3 per cent. in the hourly rate of wages paid in 1920 over the 1913 scale is shown by the statement. As far as the weekly scale of wages is concerned, the increase is only 79.3 per cent. over 1913, but it is pointed out that there was a decrease in the number of working hours per week, which is responsible for the discrepancy in the two rates. In regard to the cost of living, the department points out that the average increase in all items for a family when the peak was reached in July, 1920 was 101 per cent. over 1913. Food had risen 130 per cent. over 1913, fuel, 91 per cent.; rent, 24 per cent.; clothing, 160 per cent., and sundries 90 per cent. By December food had dropped to a level of 102 per cent. over 1913, but fuel had con-tinued to increase, reaching a level of 118 per cent. above 1913.
