The Union Pacific Railway

LAND GRANT IN NEBRASKA COMPOSES THE FINEST Farming and Grazing Lands in America.

And which are sold at Low Prices and on Long Credits to Settlers.

These Lands are so situated as to be capable of producing a great variety of Crops. Surrounded by the very best of market and business advantages, they possess besides a large and lucrative demand for their productions in the Mining and Western States and Territories. The climate is exceptional, fine—mild, crisp winters and pleasant summers—and the atmosphere is all times clear, pure and bracing; malarial diseases are unknown. The water resources are unexcelled. No section of the West is better supplied with streams, large or small. Fuel is readily available at cheap rates from the Wyoming, Missouri, Iowa and adjoining coal fields; and Lumber at a moderate advance over Chicago prices.

Live-Stock raising—including sheep and wool-growing—is prosecuted with the utmost success and profit. The long, favorable seasons, fine, free pasturage, good water and well-drained soil combine to produce these results. 25 to 50 per cent. are common returns.

TO THE ROCKIES AND BEYOND.

THE UNION PACIFIC RAILWAY forms through its numerous roads the Short and Most Direct Route. Connecting at Omaha, St. Joseph, Kansas City with all Eastern Roads, its main line reaches every mining town and grazing ground in Colorado, Wyoming, Utah, Idaho, Nevada and California; by the "Utah Northern Line" the famous Montana grazing lands and mines; and by the "Oregon Short Line" the celebrated wheat fields of Oregon and coal mines, lumber and grazing tracts of Washington Territory and British Columbia.

Reliable printed information relative to any of the above States and Territories, or as to Route and Tickets thereto, will be furnished free on application to

J. W. MORSE,

General Passenger Agent, U. P. Railway, OMAHA.
