

VOCATIONAL FACULTY ABOUT COMPLETED

Fletcher Peacock Announces Roster of Instructors at New School

LIST OF TEACHERS INCLUDES 21 NAMES

School Complex of Six, Five of Which Are Considered High

Principal Fletcher Peacock of the Vocational School has practically completed the faculty list of the institution. The appointment of E. J. Alexander, Grade 11, High School teacher, to the technical High School department of Vocational and Miss Kathleen McLean's appointment to the chair of English studies, practically rounded out what Mr. Peacock considers to be a very fine line-up of highly competent and experienced teachers.

The Vocational School is in reality a complex of six different schools, five of which are considered as High. As the school's name implies the studies are closely focussed upon workday life and the teachers selected from the various parts of the Maritime Provinces and Upper Canada have been chosen, not because of their known ability as tutors but also because of their practical experience in the lines of work upon which they will instruct.

The faculty is as follows:

Principal and director—Fletcher Peacock.

JUNIOR SCHOOL

Mathematics and physical training for boys—L. Newton Farnley, formerly principal of the Fairville School.

English composition and history—Harriet Roberts, B. A., graduate of Dalhousie.

Reading, spelling and physical training for girls—Miss Louise Tapley, graduate of the Margaret Eaton School, Toronto.

General science and economic geography—Harold W. Hayes, B. S. C., of Cornell University.

INDUSTRIAL SCHOOL

Motor mechanics—Wilmot B. Main of St. Stephen, graduate of the University of N. B. and five years in practical business.

Machine shop practice—B. W. Kelly, late of the Canadian Pacific Railway Mechanical Department.

Commercial and art printing—Bayard Stilwell, for 20 years master printer in leading Saint John shops.

Woodworking and building construction—Henry C. Evans for several years superintendent for Murray & Gregory, Saint John.

Mechanical drafting—James D. MacLean, M. A. for the last four years a practical millwright.

Mathematics—David S. Connelly B. A., graduate of St. Francis Xavier College, five years in practice and two years in teaching.

Electricity—Gordon H. Lordley, B. S. C., graduate of the Nova Scotia Technical College and for three years with the Westinghouse people at Hamilton, Ont.

PRACTICAL ART SCHOOL

Clothing—Reta St. Inch, B. S. C., Columbia University. Seven years teaching in New Brunswick and later superintendent of home economics for province.

Food and superintendence of cafeteria—Vera M. Wilson, with practical experience in home economics in New Brunswick and Manitoba; graduate of the Royal Victoria Hospital, Montreal, in dietetics.

Fine and applied art, which includes drawing, color work, design, modeling, china painting, etc.—Violet A. Gillet, graduate of the Ontario Art School and Pratt Institute.

HIGH SCHOOL OF COMMERCE

Bookkeeping—Aubrey E. Rideout, University of New Brunswick and Queens University, Toronto and late of Modern Business College, Saint John. For eight years in business and four years teacher of commercial subjects.

Shorthand and office practice—Margaret A. Morrow, B. A., graduate of Mount Allison University, two years as a teacher and four years in secretarial work, including a term with the President of Mount Allison.

Typing—Katherine G. Kane, graduate of Saint John High School and Saint John Business College. Employed with A. B. Williams Co. for a considerable term.

French—J. Edgar Pointier, M. A., graduate of St. Joseph's College and teacher in the Edmundston High School. Will employ conversational method in French.

TECHNICAL HIGH SCHOOL

Chief instructor, E. J. Alexander, B. A., late of Saint John High School, Grade 11 and previously in other provincial High Schools.

English studies, including expression—Kathleen McLean, graduate of the Margaret Eaton School, Toronto.

MUST LEARN ENGLISH

Director Peacock informs a Times-Star reporter that all pupils entering Vocational School must pass through the thoroughgoing course as taught by Miss McLean—to acquire an ability to express oneself promptly and correctly, to learn English literature and, if the pupil is so inclined, to acquire public speaking and elocution. Mr. Peacock says it is one of the prime requisites to vocational success to learn how to talk well and marshal one's thoughts properly. It is in his mind to go far enough in this line of study to be able eventually to organize classes capable of presenting the better plays, such as Shakespeare, thus serving a double purpose.

The appointment of Mr. Alexander from Saint John High gives this competent teacher tutelage over those who intend taking up scientific and engineering studies on a higher plane in universities. The curriculum has been specially selected to fit young men and women leaving High School for the next stage in their educational career. Latin is about the only study excluded from this list that is requisite to matriculation purposes.

WHAT'S IN A NAME?

What's in a name? The poet demands. Truly, what is? Above are two brilliant young women who bear the same cognomen, but how widely do their avocations and nationalities differ. Margaret d'Alvarez, above, is an American contralto, while Marguerite d'Alvarez, inset, is the Spanish tennis champion.

IRELAND PROBABLY IS SEEKING SEAT IN COUNCIL OF LEAGUE

British Dominions Wanting Same Rights as Mother Country

GENEVA, Sept. 14.—The probable candidacy of the Irish Free State for a non-permanent seat in the reorganized League Council proved an interesting topic of discussion in League circles tonight.

It is learned that the British Dominions have virtually reached a decision that Great Britain should no longer be recognized as fully representing Dominions in the League and that the Dominions as members of the League have the same right as a group to be represented in the council as have the Scandinavian, Little Entente, Asiatic and Latin-American groups.

REGIONAL PACT HOPED

Among the delegates representing India and the Dominions, it is felt that no regional arrangement arrived at which might preclude one of them asserting its right as a full member of the League to be an independent candidate for a seat in the Council.

The Irish Free State let it be known today that it was in the field for a non-permanent seat, although a definite decision has not yet been made. In a statement tonight Prof. John MacNeill, former minister of education and member of the Irish delegation, said that the delegation was considering putting forward the Free State's candidacy.

POSITION OBJECTED TO

"We find some evidence," he explained, "of an impression because that we belong to a group of states associated with Great Britain politically that that affords reason why we would not be on terms of equality with the other members of the League of Nations from the point of view of eligibility to the Council."

"We naturally object to being put, even in the matter of an impression, in that position. Our objection would extend to any other members of the same group being put in that position. In the event of no other member of that group being a candidate, we feel that we ought to come forward."

Asked his opinion concerning the criticism heard abroad that any election of a Dominion would give England two votes in the Council, Prof. MacNeill replied: "We are not bound in any way to vote except as we ourselves decide. Our vote is quite independent in the assembly and would be equally independent in the council."

PROBE IN LANDING OF ITALIANS STARTS

HALIFAX, Sept. 14.—A preliminary investigation into the landing at Mill Cove, on St. Margaret's Bay, about 40 miles from here, of over 100 Italian immigrants Sunday afternoon, was begun here today, but no statement was issued to the press. It is understood that Captain Romano, master of the Italian steamer Dori, on which the Italians were brought from Marseilles, was questioned as to the original number of immigrants and why he permitted them to land where they did.

To date 129 of the foreign fortune-seekers have been rounded up, but the authorities believe there are others still wandering about the country.

CARDS AT QUISPAMIS.

The weekly card party held under the auspices of the Quispamis Community Club, was held last evening, when several tables of forty-fives were enjoyed. The prize winners were: Ladies, first, Mrs. Fred Breen; second, Mrs. G. W. O. Neil; consolation, Miss Marguerite McIntosh. Gentlemen, first, Mark P. Leighton; second, Louis King; consolation, Walter McLaughlin.

FARMER LOSES LIFE IN GRAND BAY MISHAP

Peter Mills of Newcastle Creek Drowns While Out Fishing

NEWCASTLE CREEK, Sept. 14.—Peter Mills, a well known resident of this place, was drowned Sunday afternoon in Grand Bay, when a boat from which he was fishing filled with water, upset, and threw him into the lake.

Mr. Mills started out in front of his home in the boat to fish; not meeting with any luck he rowed out further in Grand Bay and when a considerable distance from the wharf the boat filled with water and upset. As the boat turned bottom up Mr. Mills grabbed hold of it and shouted

for help. James Wood and Eben Crawford in one canoe, put out to his assistance but before they reached him he had apparently become exhausted and dropped into the waters of the lake, never coming up again.

BODY RECOVERED.

Deceased was 51 years of age and a native of England. He came here some years ago and is survived by his widow and one daughter, Miss Gladys Mills. He leaves several brothers and sisters in England in addition to one sister, Mrs. Charles Booth, residing here.

BUFFET SET PRESENTED.

Miss Nell McKinnon and Miss Gladys Shortis entertained 25 friends at a corn boil last evening at South Bay Camp. Miss McIntyre was the guest of honor and during the evening was made recipient of a beautiful buffet set. Japanese lanterns made an effective decoration and the supper table was centred with cut flowers. Miss McKinnon, Miss Shortis and Miss H. McLean, assisted in serving delicious refreshments. Cards, music and dancing were enjoyed. Warrants have also been issued in

FISH DYNAMITERS IN MADAWASKA CO.

Two Are Assessed \$100 and Costs Each at Edmundston

FREDERICTON, Sept. 14.—H. E. Harrison, fisheries inspector, has returned from Madawaska county where he was engaged last week in connection with the prosecution of two charges in connection with the dynamiting of fish in the Quispamis river.

Fidèle Martin and Martin Devest, who were apprehended by Guardian Deschene, of the staff of the Provincial Department of Lands and Mines, were both convicted of the charges before Magistrate Began at Edmundston and were assessed fines of \$100 each together with the sum of \$15 costs. The prosecutions were conducted by the Department of Marine and Fisheries to whom the cases had been reported.

APPLE SHIPMENTS TO UNITED KINGDOM

Apple shipments for United Kingdom and the Continent are so large that the Blue Star Line has assigned several additional steamers for loading on Pacific Coast, as announced by the Admiral Oriental Line, agents. The steamers Doricstar, Vikingstar and Empirestar have been added to those formerly announced. This will mean six steamers loading for United Kingdom and three for the Continent, the largest number of Blue Star steamers to load on Puget Sound during any one season, and the steamers are among the largest refrigerator vessels in the world.

The Trojanstar sailed from London Aug. 24 and will start loading at Vancouver Oct. 1, scheduled to handle the first movement of apples from the Pacific Coast direct to United Kingdom.

NO ARRESTS.

Election day here was marked by the fact that not a single drunk was taken in charge yesterday or last night. As there was no other business, no session of the Police Court was held this morning.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells of Pleasant Home Treatment to Bring Swift Relief

So-called Stomach Troubles—indigestion, dyspepsia, gas, sourness, etc., are, in probably nine cases out of ten, evidence of "too much acid in the stomach" souring the food, causing the formation of gas and starting acid indigestion.

Gas distends the stomach and causes a full, oppressive burning feeling known as heartburn, while the acid irritates and inflames the delicate stomach lining. Get rid of Gas and Acidity, and you get rid of Indigestion.

To stop or prevent the sourness and gas, to neutralize the stomach acids and keep the stomach sweet and free from indigestion, a teaspoonful or four tablets of Bismarck's Magnesia should be taken in a little water after eating or when gas, sourness, pain or acidity is felt. This quickly sweetens the stomach, neutralizes the acidity, stops the pain and is harmless and inexpensive to take.

Bismarck's Magnesia, powder or tablets only, can be obtained from any drug store and its daily use keeps the stomach in fine condition, enabling it to do its work without the aid of artificial digestants.

Use the Want Ad. Way

Commencing this week our stores will be closed Friday evening and open Saturday until 9.55 p.m.

WEDNESDAY, SEPT. 15, 1926

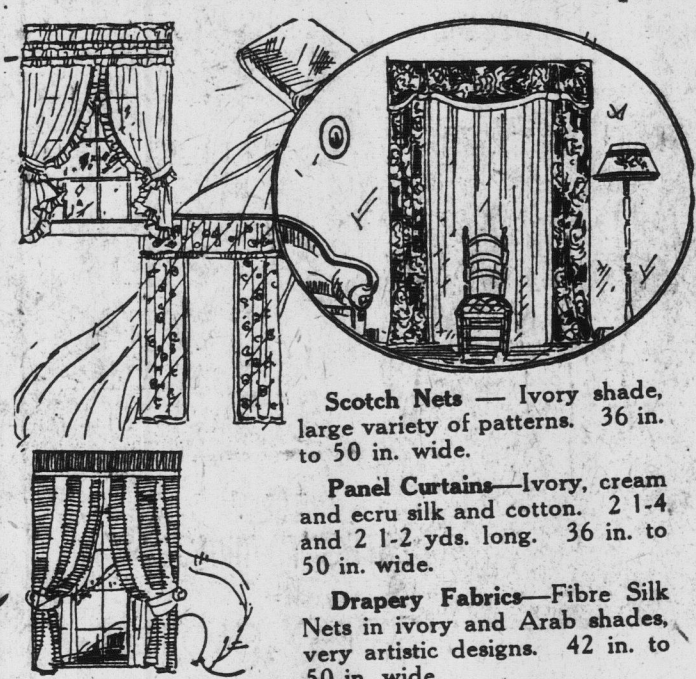

New Window Draperies

Now come the months of indoor pleasures when renewed interest in the home makes us think first of all of our windows.

The clever housewife knows that the best way to give a definite atmosphere to her rooms is through her window hangings.

Bring your drapery problems to us, you'll be delighted with the charming variety of new fabrics we have to show.

New Curtains, Curtain Materials and Draperies.

Scotch Nets—Ivory shade, large variety of patterns. 36 in. to 50 in. wide.

Panel Curtains—Ivory, cream and ecru silk and cotton. 2 1/2 and 2 1/2 yds. long. 36 in. to 50 in. wide.

Drapery Fabrics—Fibre Silk Nets in ivory and Arab shades, very artistic designs. 42 in. to 50 in. wide.

Autumn Millinery Modes

Include adaptations and creations of unusual brilliancy, showing the very newest in fashionable Millinery.

Tailored and dressy types in Velvets, Felts and Velours.

There are squashy little Mushroom shapes that fit snugly over cropped hair, in the finest of felts in fascinating shades—Rouge Prelat, the newest you'll love. The wine shades, too, are most appropriate for brilliant fall afternoons. And there is still the delightful little Beret with a new way of keeping its fulness almost entirely in the back. It may have a tiny brim or may be turban shape in combination with its chic little tam.

Reds are not alone in the color scheme, there are a few lovely shades of green, some blues, and of course warm tints of fall.

(Millinery Dept.—Second Floor.)

New Fur Trimmed Coats

In New Fall Styles

\$15.90, \$25.00, \$29.50

Prices that are obviously much less than regular, as you will agree when you see these garments. At \$15.90 and \$25.

A variety of Tweeds in Plaids and Novelty weaves, and a varied range of color combinations make up two groups and these with splendid fur collars, and many with fur cuffs, too. At \$29.50. This group is made up of Canadian Needlepoint, some with plain, others with novelty linings—all fully inter-lined. All with big fur collars and fur cuffs, too. An outstanding value.

See these coats—make your selection now. (Ready-to-wear Section—Second Floor.)
