HOME REMEDIES OF OUR ANCESTORS

Almost every man and woman in America can remember the home remedies of our mothers and grandmothers for the treatment of disease, and they were wonderfully dependable too.

Every fall there were stored away in the attic thoroughwort, pennyroyal, catnip, sage, wormwood, rue, etc., for treating ills of the family during the winter months that followed. In 1873, Lydia E. Pinkham's Vegetable Compound was first prepared from one of these botanic recipes, and the demand for it increased to such an extent that hundreds of tons of roots and herbs are now used annually in its preparation. It has recently been proved that 98 out of every 100 women who try it have been benefited by its use, which is a marvelous record for any medicine to hold.

Newest apartments have ranges built into recesses, so that a curtain may be hung over the opening to conceal the stove.
