OXO GENERATES HEAT

Concentrated Beef Cubes Fortify Body Against Chills.

An Oxo cube dissolved in a cup of hot water is a splendid thing to take before going out in the cold or damp, or on coming in, if one feels the slightest ill effects. Besides its nourishing and invigorating properties, Oxo acts as a fuel in the body, generating heat that the system requires.

Oxo cubes—in tins of four and ten cubes—have endless possibilities. For soups, sauces, gravies, savory dishes and meat jellies, they do all that meat could do, and do it quicker and with less trouble. Use Oxo cubes with "left-overs" and oddsends for new, delicious dishes. There is nothing better than Oxo for building sturdy boys and girls.

TWO INTERESTING SPEAKERS HEARD BY CANADIAN CLUB

The members of the Canadian Club who dined at Bond's last evening heard two interesting speakers—men who had something to say and said it well. The first was W. H. Ramsay, a distinguished United States speaker, whose topic was "Universal Peace." He strongly supported the league of nations movement and an international tribunal to keep peace in the world. The second speaker was Hon. Janine Paez Masandaran, professor of philosophy in the University of the Shah at Teheran, the Persian capital, who described the situation in his country from a British viewpoint. The professor spoke in his native tongue, but his excellent address was interpreted by Ahmad Solim, a student and educationalist of ability, whose home is in the Holy Land. Mr. Solim's repetition of the professor's address in English was done in a clear and impressive manner. Horace A. Porter introduced the speakers and announced that Sir Robert Borden would be unable to address the club at an early date, but that Theodore G. Roberts would probably be a speaker next week, word to this effect having been received by C. W. Romans, the secretary. Grace was said by Rev. R. P. McKim, rector of St. Luke's church.

"the proper study for mankind is man." He therefore entered the service of his home town and for twenty years he worked hard and studied, in return for a wage about equivalent to that of a steam-fitter's helper. At last his efforts began to bear fruit; his dreams of community service materialized in the form of a great municipal undertaking destined to bring comfort and happiness to his fellow citizens. He persuaded the

city council to authorize the undertaking and at last the work was under way. So the man—no longer young—went forth upon the city streets to stretch his tired limbs and forget the cares of office. As he rested in the public park he overheard the idle talk of several fellow townsmen and the talk was concerning his great undertaking. He knew the work was good and so he listened and this is what he heard about himself: "Clever duck! Wonder how much rake-off he got?"—New York Municipal Reference Library Notes.
