Rev. Mr. Graham is now actively forwarding the cause of the college, and those who know his energy and capacity do not need to be told that he will do effective work. His friends will be glad to know that the educational work for which he gave up his St. John pastorate, has greatly broadened its out-look, and that he will ind full scope for his splendid zeal and ability.

At the last meeting of the Synod of Saskatchewan the college was especially commended to the congregations, which were arged to make available as soon as possible the funds required for the first two buildings to be erected. When all is completed, Moose Jaw will be the seat of an educational institution of far-reaching influence in the new west.

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good be gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agenies of nervousness.

To strengthen the stomach, restore the actifity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an untailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medical
