

Moffat's VEGETABLE LIFE PILLS AND PHENIX BITTERS.

WHO WANTS BETTER EVIDENCE?
I would refer the reading public to the numerous voluntary letters published recently in this paper and in the Good Samaritan, and to the happy and beneficial effects of the administration of MOFFAT'S LIFE PILLS AND PHENIX BITTERS.

Those who have perused the letters above referred to will observe that in almost every case they attest the fact, that no inconvenience of any sort attends the taking of these medicines, in ordinary cases, but that the patient, without feeling their operation, is universally left in a stronger and better state of health than was experienced previous to being afflicted with disease; and in all cases of acute suffering, great relief is obtained in a few hours, and a cure is generally effected in two or three days.

In case of Fever of every description; and all bilious affections, it is unnecessary for me to say, as I believe the Life Medicines are now universally admitted to be the most speedy and effectual cure extant in all diseases of that class.

The Life Medicines are also a most excellent remedy in affections of the liver and bowels, as has been proved in hundreds of cases where patients have come forward and requested that their experience in taking them might be published for the benefit of others. In their operation in such cases, they restore the tone of the stomach, strengthen the digestive organs, and invigorate the general functions of the whole body, and thus become to both sexes (for they are perfectly adapted to each) an invaluable means of preventing disease and restoring health.

In affections of the head, whether accompanied with pain and giddiness, or marked by the grossness of an impaired mental energy; palpitations of the heart, flatulency, loss of appetite and strength, and the multiplied symptoms of disordered digestion, the Life Medicines will be found to possess the most salutary efficacy.

Constitutions relaxed, weak, or decayed, in men or women, are under the immediate influence of the Life Medicines. Old habits, such as intemperate habits are soon relieved and speedily cured. Fetters of blood, and emaciated limbs will in long time be restored to their natural vigour, and the fluids will become rich and balsamic, and the limbs be covered with flesh, firm and healthy.

Nervous disorders of every kind, and from whatever cause arising, by before the effects of the Life Medicines, and all that train of sickness, anxieties, and tremors which so dreadfully effect the weak, the elderly, and the delicate, will in a short time be succeeded by cheerfulness and every promise of health.

For relaxation of the vessels, by too frequent indulgence of the passions, this medicine is a safe, certain, and invaluable remedy.

Those who have long resided in hot climates, and are languid and relaxed in their whole system, may take the Life Medicines with the happiest effect; and persons removing to the Southern States, or West Indies cannot store a more important article of health and life.

The following cases are among the most recent cures effected, and gratefully acknowledged by the persons benefited:

Case of Jacob C. Hunt, New Windsor, Orange County, N. Y. - When suffering from a violent fever, he was cured by the Life Medicines, and in less than three months was entirely cured. [Case reported, with a wood engraving in a new pamphlet now in press.]

HAY'S LINIMENT.**
NO FICTION - This extraordinary chemical composition, the result of science and the invention of a celebrated medical artist, and the introduction of which to the public was invented with the solemnity of a death-bed request, has since gained a reputation unparalleled, fully sustaining the correctness of the lauded Dr. Girdley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject;" and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.
It is now used in the principal hospitals, and the private practice of our country, and is most certainly for the cure of the Piles, and also extensively and effectually to relieve colic, unless where the effects are witnessed. *Externally* in the following complaints:
