

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Yeast Powder

ABSOLUTELY PURE

News Summary.

DOMINION.

—The length of the new St. Clair tunnel is 5,520 feet. Its cost is \$1,460,000.

—Montreal is to have an electric railway, which it is expected will be opened about next Dominion Day.

—Mr. Robert West, a highly respected merchant of Bridgewater, N. S., died very suddenly in his store on Wednesday last.

—Senecal has returned to Ottawa. He says he will go into business at Montreal. There ought to be an opening for him at Kingston.

—The town of Amherst is to have a system of waterworks. The contract has been awarded to a St. Catherine's, Ont., firm for \$70,000.

—The barn, house, shop and out-buildings of Josiah Tingley, at Hopewell Cape, were burned on Wednesday last. The fire was caused by the upsetting of a lamp in a hay mow.

—Major Perley, chief engineer of the Public Works Department, is reported to be seriously ill. He has been confined to his bed for two weeks, and it is feared that his case is critical.

—Dr. Steeves, superintendent of the Provincial Lunatic Asylum, has threshed this year 75 bushels of prime wheat from two acres of ground, on which three bushels and a peck of seed was sown.

—Mr. E. C. Shand, Windsor, N. S., and his brother, Mr. Edgar D. Shand, have formed a co-partnership for carrying on a wholesale and retail grocery business. Both these young men were well known in Windsor as men of integrity and successful business men.

—An English syndicate is negotiating for the purchase of St. Lawrence Hall, Montreal, one of the oldest hotels in Canada. Five hundred thousand dollars is the price, and the syndicate will spend another five hundred thousand in putting on a number of stories and making other improvements.

—The British commissioners to Behring Sea are expected to return this month. The premier has had a communication from Dr. Dawson stating that the delegates had full and ample opportunity to make the investigation desired, and speaks highly of the courtesy of the Russian and American officials.

—Messrs. A. Robb & Sons, of Amherst, are about making application for a charter of incorporation of their business under the name of "The Robb Engineering Co., Limited." In connection with their present extensive business they expect to go into the manufacture of telephones and all electric appliances and lights. The capital stock is to be \$249,000 in \$100 shares.

—Claud Barnes of Windsor, a newsagent on the Windsor Annapolis railway, fell from Conductor Joe Edwards' incoming train near Bedford the other evening. He was not missed till the next station was reached, when word was then telegraphed back to a special that was following to look out for him. He was found across the track unconscious. He was brought to town and taken to the hospital, where his skull was found to be fractured. Small hopes are entertained of his recovery. He is 22 years old.

—The provincial government is meeting, and it is not unlikely that they will be called upon to appoint a successor to Dr. Allison, superintendent of education for Nova Scotia. This is a most important office, and one that should be filled by the best educationist available. We feel quite sure that no considerations but the public interest will be allowed to prevail in making the appointment. It may not be possible to please everybody but a selection can be made which will secure public confidence generally.—*Halifax Chronicle*, Oct. 6.

—Since 1862 the products of the gold mines of Nova Scotia amounted to \$9,402,703, returns before the war being brought up to 1889. British Columbia since the discovery of gold in 1858 has furnished the world with \$52,188,880, but while British Columbia's yield has gone down from over \$3,000,000 a year to a little over half a million, that of Nova Scotia increased from \$140,000 in 1862 to \$510,000 in 1889, and notwithstanding the fact that unskilled hands have dabbled so much in this province's mining, the average yield per ton of quartz crushed has been \$14.24 per ton, exceeding that of any other quartz mining in the world.—*Witness*.

BRITISH AND FOREIGN.

—Experiments made at Aberdeen, South Wales, with an invention known as Snyder's dynamite projectile, proved that dynamite bombs may be safely fired from ordinary guns by the Snyder system. The inventor of these dynamite shells is F. H. Snyder, of New York.

—A terrific gale has prevailed in the Irish Sea. It is believed much damage was caused to shipping along the coast. A despatch from Holyhead states that three vessels were wrecked near that port. Despite the furious wind and heavy sea, the lifeboat crews worked heroically and their efforts to save the lives of the shipwrecked crews were crowned with success.

—The Times Paris correspondent says: The government is only waiting for the assembling of the Chamber of Deputies to ascertain their feeling in regard to the matter before pressing the negotiations already far advanced for a formal alliance with Russia. "According to this version of the situation, which I am unable to verify," says the correspondent, "it seems likely the Chamber of Deputies will object to Russian stipulations, which too closely identifies France with Russian interests."

—It is stated that Mr. Ruskin's health shows decided improvement. He is stronger now than he has been for some time.

—The newspapers of St. Petersburg denounce the conduct of merchants and members of the nobility for seeking profit from their stores of corn while the people are starving. They make an appeal to the government to relieve the edict prohibiting the export of rye and substituting therefor a heavy tax on the exportation of all cereals. Reports from the Baku district and elsewhere are that thousands are dying of starvation.

—In his special cable letter to the *Tribune*, Mr. Edmund Yates says: Much indignation and annoyance are being felt and expressed in the city at the mere suggestion that the Salvation Army is desirous of acquiring one of the largest houses on the Thames Embankment, near the Temple, for the erection of a stupendous and colossal headquarters and assembly halls. The Corporation of London, who own the property, are already being begged not to listen to any such proposal, and it is expected that, however liberal the terms may be, the Army's request will be refused. A project is being revived to build a magnificent Mansion House on the Embankment.

—Published reports of the week confirm what was said recently about the serious physical breakdown of the Pope. He is striving manfully to keep up and is undertaking more than ordinary labor in receiving huge concourses of pilgrims. No one knows better than His Holiness, it may be imagined, what a troublesome and weary year the Vatican when he departs. No fewer than ten cardinals are now vacant, and it is unlikely that he will bestow any more during his lifetime, so vehement is the schism inside the Sacred College on the question of which element, the Italian or the foreign, the accession should represent. With Leo's death the question of a removal from Rome may easily become a vital question.

—The Cunard Steamship Company deserves honor from all who believe in treating men fairly whatever their color. Rev. B. Ames, of Memphis, the only colored delegate from the United States to the International Congressional Council in London, crossed in a Cunard. The captain invited him to conduct religious services on Sunday, and Mr. Ames did so. A white passenger made some contemptuous and abusive comment concerning the service, because Mr. Ames was black. The captain summoned the passenger and ordered him to make an apology. He not only refused but indulged in further abuse. The captain called the purser, told him to put the passenger's baggage in the hold, and to tell the passenger the difference between the first and third class passage and to put him into the steerage, adding that if he made any further trouble he would be put in irons. On arriving in Liverpool the passenger complained to the company but when they heard the facts they not only upheld the captain's action, but presented Mr. Ames with \$150 for his work in Memphis.—*Ex.*

—The papers are quoting as something novel the fact that when the prayers of John of Crossroads, who was summoned for the purpose, failed to arrest the fatal illness of the Grand Duchess Feodora, the sacred ikon was taken from the Iberian chapel in Moscow, and driven out with a coach and six to the Illinoiko Palace to work the miracle of healing. As a matter of fact, this special ikon rarely remains in the chapel throughout any day. It is always being sent for to houses of sickness, and the spectacle of its passage in its own equipage through streets crowded with kneeling, bareheaded spectators is a familiar sight in Moscow. It in this way earns about \$50 daily. The car or any of his brothers or sons never enters Moscow without first to house of the Iberian chapel and prostrating himself before this sacred ikon, or picture of the virgin. All orthodox Russia would be agast at a failure to do this. The truth is, what is mis-called Christianity in Russia is entirely a worship of images, and is as much a part of heathenism as fetish adoration on the Upper Congo.

—A discovery which may prove important in relation to surgery is said to have been made by Dr. Sleich of Berlin. He was conducting experiments with a view to determining how weak a solution of cocaine would prove efficacious as a local anesthetic in minor surgical operations, when he stumbled upon the fact that simple water injected under the skin with a syringe renders the flesh at that point insensible to pain. The effect of the water is to create a slight swelling resembling that caused by the sting of a gnat. The space marked by the swelling remains insensible for some minutes so that incisions can be made without causing pain. To what extent this discovery will prove practical worth in surgery cannot be determined. Dr. Sleich made use of it in the case of a huge carbuncle on the thigh. After the injection of water the doctor's carbuncle open by cross incisions, eight inches in length, and he cleared that the operation gave slight pain. The treatment has no ill effect upon the healing of the wound. In the case mentioned the outstump once reunited and healed perfectly.

UNITED STATES.

—A farmer in Macoupin Co., Illinois, has a steer which weighs 4,500 lbs. He is supposed to beat the world.

—H. Panmore Gordon of London, whose firm claims to have placed five hundred million dollars of English capital in this country, is in Chicago for the purpose of consummating the twenty-five million dollar stockyards deal in that city.

—At Hudson, Mass., October 4, thermometer registered 96° in the shade.

—A Chicago woman has invented a car-coupler, for which it is claimed that the simple, inexpensive and practicable, can be applied to any freight or passenger train now in use at comparatively small cost.

—The immense butchering and packing establishment of John P. Squire & Co., in East Cambridge and Somerville, Mass., was partially destroyed by fire on Monday last week, involving a loss of \$150,000, and roasting some 1,000 hogs alive.

—Heavy and continuous rains in various sections of North Dakota have caused the suspension of wheat threshing and the outlook for securing the immense crop is becoming less bright. The loss consequent upon the unfavorable weather is enormous.

—The Supreme Court of Minnesota, lately decided that dealings in grain futures are unlawful and that contracts are void unless actual delivery is made. The decision is of great importance, as two of the largest boards of trade in the country are now located at Minneapolis and Duluth.

—Mr. Thomas A. Edison believes he has solved the problem of propelling electric cars by the use of underground lines. The system proposed will be somewhat more expensive than that which uses the overhead wire, but the latter is not to be tolerated in large cities. The two difficulties in the way of the underground wire plan has been the picking up of the current from the overhead bars, and the making of a joint that should be a perfect conductor between the rails. Both of these problems Mr. Edison claims to have solved.

—The Greenleaf & Forst oil well, in the McDonald field, Washington Co., is flowing at the rate of 15,000 barrels a day, far in excess of the greatest well previously known. Oil certificates are selling in the exchanges at 60 cents, which means \$9,000 a day to the owners if the oil is all sold; but, unfortunately it is not. This well had been doing nine thousand barrels a day, but when an attempt was made to lift out the tools used in drilling, the flow increased to the above figure. No further attempt was made to get the tools, and the oil is running all over the grounds, at least six months of the year, at the rate of 15,000 barrels a day. There is great excitement in the field. Six more wells have been drilled in the same farm.

—"Time tries all things," and has proved that Dr. Williams' Balsam of Wild Cherry is the remedy *par excellence* for the cure of coughs, colds, croup, whooping-cough, bronchitis, asthma, sore throat, and influenza. It cures coughs *instantly*, and even consumption yields to its magic influence.

A Model Railway.

The Burlington route, C., B. & Q. R. R. operates 7,000 miles of road, with terminal in Chicago, St. Louis, St. Paul, Omaha, Kansas City and Denver. For speed, safety, comfort, equipment, track, and efficient service it has no equal. The Burlington gains new patrons but loses none.

Births.

SHARPE.—At Windsor, N. S., Sept. 23, 11, the wife of Alfred O. Sharpe, of a son.

WELTON.—In this city, on Monday, the 5th inst., at 7.30 p. m., to the wife of Rev. Sydney Welton, a son.

Marriages.

BRIDGES-WILKINGALE.—On the 5th inst., by Rev. G. O. Gates, A. M., Daniel Bridges, to Mrs. Mary Wilkingale, all of St. John.

CANN-PUGH.—At Freeport, N. S., Sept. 30, by Rev. E. P. Caldwell, George A. Cann, of Westport, to Alice Pugh, of the same place.

CHUTE-DAVIDSON.—At Gasperaux, N. S., Oct. 7, by Rev. M. P. Freeman, Richardson Chute, of Berwick, to Zilpha D. Davidson, of Gasperaux.

WHIDDEN-LORRAINE.—At the Onslow Baptist church, Sept. 29, by Rev. M. W. Brown, John Whidden, to Lizzie Lorraine, both of Onslow, Col. Co.

AKERLY-STRAIGHT.—At the home of the bride, on the 29th Sept., by Rev. A. B. Macdonald, Walter C. Akerly, of Wickham, to Maggie M. Straight, of Cambridge.

BISHOP-BENJAMIN.—At Gasperaux, N. S., Sept. 8, by Rev. M. P. Freeman, Freeman Bishop, of Kentville, to Etta L. daughter of Douglas Benjamin, Esq., of Gasperaux.

SHOAN-HULLINGS.—At the parsonage, Newburg, on the 4th inst., by Rev. J. McGeorge, Freeman Shoan, of St. John, N. B., to Rebecca Hullings, of Foga Village, Newfoundland.

HUNT-STODDARD.—At Falkland Ridge, Annapolis Co., N. S., by Rev. S. Langille, Whitson Hunt, of Greenfield, Queens Co., to Mary M. Stoddard, of Falkland Ridge, Ann. Co., N. S.

PHILLIPS-SPENCER.—At the Baptist church, Little Glace Bay, Cape Breton, on the 6th inst., by Rev. William Wetmore, Joseph J. Phillips, to Annie L. Spencer, both of Little Glace Bay, C. B.

HUGHES-PERRY.—At the home of the bride, on the 8th ult., by Rev. J. H. Hughes, assisted by Rev. W. T. Corey, Rev. Benjamin Nan Hughes, to Melissa Alice Perry, all of Havelock, Kings Co., N. B.

MOTT-MOWAT.—At Campbellton, N. B., at the residence of the bride's father, John Mowat, Esq., Oct. 5, by Rev. C. P. Wilson, assisted by Rev. A. H. Carr, D. Gordon Mott, of Colon, Panama, to Maud Mowat, of Campbellton, N. B.

SHORT-ROBINSON.—At the Baptist church, Hantsport, Oct. 6, by Rev. W. H. Robinson, brother of the bride, assisted by the Rev. P. S. McGeorge, H. B. Short, of Digby, agent of Bay of Fundy Steamer Line, to A. Robinson, of Hantsport.

LONG-KELLY.—At the residence of the bride's father, Kingsclear, York Co., Sept. 30, by Rev. Geo. W. Foster, of Tracy Station, Sunbury Co., N. B., Chas. H. Long, M. D., of Eganville, Michigan, to Guskie Kelly, of Kingsclear, York Co., N. B. (St. John papers please copy.)

Deaths.

BRADSHAW.—At St. Martins, Sept. 9, Minnie H., daughter of Joseph and Lily Bradshaw, aged nine months.

CLEVELAND.—At St. Martins, on the 4th inst., Mrs. Isaac Cleveland, aged 62 years, leaving two sons and three daughters to mourn the loss of their kind friend.

GILCHRIST.—At Cambridge, Queens Co., Sept. 4, Mrs. James Gilchrist, aged 49. Sister Gilchrist leaves a husband and five sons to mourn the loss of a faithful wife and loving mother.

EADE.—At the residence of his son-in-law, Allen Sisson, Andover, Victoria Co., on the 25th Sept., Allen Eade, a much respected resident of Tobique for more than forty years, aged 78 years and 10 months. His end was peace.

ARMSTRONG.—At DeLoraine, Oct. 1, Mrs. Cath. Armstrong, a faithful wife and kind mother, leaves a large family to mourn their loss. Mrs. Armstrong professed to be converted some years ago. She deeply regretted on her dying bed that she did not give herself to Christ in obedience to His commands; but her end was peace. She died trusting in the Lord.

FRANCIS.—On the 29th September, at his residence, St. John, Bro. Francis, for long years an active and honored member and deacon of the DeLoraine Street Baptist church. Deacon Francis by his devotion to the church, by his faithful duties in the discharge of all Christian duties had endeared himself to his brethren; by his Christian life and integrity he gained the respect and esteem of the public. He was widely known, having years ago carried on an extensive business on Prince William street. He had lived to a good age, his last 82 years old at his death. His last sickness though but a few days' duration was exceedingly painful, but strong confidence in his Lord gave him patience and God given grace enabled him to joyfully triumph even in face of death. "The memory of the just is blessed." Com.

GOLDEN WEDDING.—Some of our kind friends (without our expressed wish) resolved to celebrate the fiftieth anniversary of our marriage by making us a beneficent visit, on Sept. 29th. The meeting was organized by electing Bro. C. C. Wilson secretary, Deacon J. Hutchinson treasurer, and Bro. J. B. Ganong (he) chairman. Each of those officers performed their duty to the hilt. The time was occupied chiefly with prayers and speeches, interspersed with singing. The amount donated by the party (including \$11.45 sent from Niagara, and a small sum from two or three other persons) was upwards of \$100. The same was presented by Deacon J. L. McKinnon, accompanied with an appropriate speech. All present seemed pleased and satisfied with their visit, while to us it was both pleasant and profitable. The whole affair from beginning to end was conducted upon strictly Christian and benevolent principles; and we believe that in the final reckoning day it will be said by the Judge to each of those dear friends, "inasmuch as ye have done it to one of the least of these my brethren, ye have done it unto Me." We wish for each and all who favored us with their presence or their aid on that occasion a truly prosperous and happy life on earth and everlasting bliss in heaven.

R. S. AND H. P. MONTON.

P. S.—We wish just here to record the faithfulness of our Heavenly Father in sending us the above amount, as it has come at a time when it is greatly needed.

R. S. M.

Mothers have pity on your pale and suffering daughters. Their system is "run down" and if neglected our sequences may be fatal. Dr. Williams' Pink Pills will bring back their rosy cheeks and health and strength.

Dr. Kendrick's White Liniment cures and relieves headache.

Dr. Kendrick's White Liniment cures and relieves headache.

Literary Notes.

A volume of the late James Russell Lowell's letters is to be issued, it is said. Prof. Charles Eliot Norton, Mr. Lowell's literary executor, has undertaken the work of selection and makes an appeal to Mr. Lowell's correspondents for copies or originals of letters they may have received from him.

Dr. Weir Mitchell, of Philadelphia, has put into narrative form the ripest results of a lifetime of specially trained observation of human nature. He calls his story "Characteristics," and *The Century* has secured it for the coming year. The editors consider it "more than a novel," made up as it is of part science, part poetry, and part the author's self.

The Review of Reviews for October is a number of more than ordinary interest. Some twenty pages are given to notes on "The Progress of the World, Current Events, and the Outlook," by a group of prominent men. There are two articles on a World Congress in Methodism, with numerous portraits of prominent English and American Methodists. Hugh Price Hughes and his work is the title of an article by W. S. Stead, the English editor. James Russell Lowell and his work are discussed in six articles. In addition there are a large number of leading articles on the Month and the issue reviews. The Review of Reviews (13 Astor Place, New York) is 20 cents a copy; \$2 a year.

The Treasury for Pastor and People for October is full of excellent timely sermons and articles well adapted to aid pastors and others in their work. Dr. F. L. Cuyler sketches Rev. Charles G. Finney in his own inimitable way. An excellent article on "Old Testament Inspiration," with notes on "The Science of Preaching," by Archdeacon Farrar, is worthy of careful reading, as also "Equipment for Christian Work," by

BREAKING UP OLD IDEAS.

MODERN METHODS are good enough for us. We do not resort to them until we know that they are right, and then we abandon old ideas without a murmur. The language of persuasion is not in our line. Our persuader is the largest possible value for the least possible money. We are selling our Clothing on terms that make it irresistible to purchasers. If you see it you are sure to buy. The styles and prices do the whole thing. 2,000 pairs of Pants at half-price; but Overcoats is what you're looking after now. We start them at \$5.00 and run them up to \$15, with scores of prices in between. You want an Ulster. Well, you ought to have one; the winter's going to be cold, and they are cheaper than doctors' bills.

Scovill, Fraser & Co.,

Oak Hall and Royal Clothing Stores,

47 and 51 King Street, St. John, N. B.

Johnston's Fluid Beef.

It is a genuine and reliable Meat Food, absolutely pure, and free from any adulteration. It is manufactured from the finest quality of Beef, and supplies all the virtues that exist in Prime Beef.

Rev. J. E. Denton, "The Annual Roll Call," by Rev. J. W. Waddell, and "Old Age," by Oliver Wendell Holmes. Yearly subscriptions, \$2.50; clergymen, \$2; single copies, 25 cents. E. B. Treat, publisher, 5 Cooper Union, New York.

There are a number of noteworthy papers in *The Arena* for October which magazine readers will appreciate. Such for example as Dr. Geo. Stewart's paper on Lowell, which is critical, yet very entertaining; a fine portrait of Mr. Lowell, taken from the last photograph of the great poet, forms a frontispiece of this number. Mr. Henry Wood, author of the "Natural Law in the Business World," "Edward Burton" and other able works, writes on "Healing through the Mind." Hamlin Garland contributes a brilliant and entertaining paper on Mr. and Mrs. James A. Herne. His contribution deals largely with the dramatic work of Mr. Herne, especially the play "Margaret Fleming." This paper is illustrated by ten finely executed photographs. Theodore Stanton discusses "Some Weak Spots in the French Republic." Moncure D. Conway writes on "Madame Blavatsky at Adyar." Thaddeus B. Waksman defends Nationalism. H. C. Brady discusses our present political outlook under the caption "Leaderless Mobs." Will Allen Drumgoole furnishes the story of the month which is entitled "A Grain of Gold." It deals with the convict lease system of Tennessee. The editor contributes two strong editorials on dealing with our present social conditions, the other discusses religious persecution. The contents of this issue of *The Arena* are usual marked by variety in subjects, while all the papers given are able, entertaining and in touch with the living thought of the hour.

Headache, dizziness, ringing noises in the ears, hawking and spitting are sure symptoms of catarrh. There is no case Nasal Balm will not cure if given a fair trial. Beware of imitations.

Dr. Kendrick's White Liniment cures and relieves Rheumatism.

Minard's Liniment Lumberman's Friend

Do not be Depressed

because you have been unable to rid yourself of that obstinate cough. You have been experimenting with new and worthless compounds.

Cheer up!

There is hope for you if you will try that standard preparation that has been in use for more than 30 years.

Wistar's Balsam of Wild Cherry.

It will Cure You. Sold by all Druggists.
